PROFESSIONAL EXPERIENCE

Ericsson - Web Developer

Sep 2023 – Present

Bengaluru, India

- As a web developer intern at Ericsson, I gained hands-on experience in fundamental web design technologies. I contributed to web development projects, collaborated with a dynamic team, and honed my skills in HTML, CSS, and JavaScript. My internship at Ericsson enhanced my ability to create user-friendly and visually appealing web interfaces, adding valuable expertise to my portfolio
- Technologies Used:** HTML/Css, SCSS, JavaScript, Git, Bootstrap

Aeris Communications - Software Development Engineer

Feb 2023 – April 2023

Noida, India

- As an SDE Intern, I collaborated with the design team to develop responsive and user-friendly web interfaces using the Next.js framework and React.js library.
- Technologies Used:** HTML/Css, SCSS, JavaScript, ReactJs, NextJs, Git, Bitbucket, Jira, Unit Testing

EDUCATION

BTKIT, Dwarahat - B.Tech in Electronics and Communication Engineering

August 2019 – June 2023

- CGPA (Till 7th semester) - 8.22 on a scale of 10
- Coursework:** Data Structures & Algorithms, Database Management Systems

Kumaon Public School, Dwarahat

April 2018 – May 2019

- CGPA - 7.6
- Coursework:** PCM + CS

Kumaon Public School, Dwarahat - Secondary Education

April 2016 – April 2017

- CGPA - 9.6 on a scale of 10

SKILLS AND STRENGTHS

- Frameworks & Libraries:** React.js, Next.js, Node.js, MongoDB, Express.js, Bootstrap, material ui
- Languages:** C/C++, JavaScript, SQL, HTML, CSS
- Developer Tools:** Git, GitHub, VS Code, Postman, Jira
- Soft Skills:** Leadership, Writing, Teamwork & Collaboration, Public Speaking
- Hobbies:** Badminton, Sudoku, Drawing and Painting

ACHIEVEMENTS

- LeetCode** - Solved over **170+ DSA Problems**
- GeeksforGeeks** - Solved over **200+ problems**
- Consistently ranked in the top 10% of coders in college.
- Coordinated and organized numerous workshops, seminars, college events and hackathons to create engaging experiences for students.
- Consistently ranked among top 3 students within the branch for 4 years

PROJECTS

- RecipeHub** | June 2023 – July 2023

- Created a CRUD web App that enables users to Create, Read, Delete, and update recipes based on their selection.
- Implemented a user-friendly interface using Bootstrap, React.js, while ensuring efficient data handling and management on the back-end with Node.js and MongoDB.
- Implemented robust user **Authentication and Authorization** mechanisms to safeguard sensitive user data and enhance application security.
- Technologies Used:** HTML, CSS, JavaScript, NodeJS, ReactJS, Mongoddb, ExpressJs, REST APIs

- To-Do List** | May 2023– June 2023

- The app is developed using React, for building interactive user interfaces. React DOM is used for efficient rendering, while React Icons provide a collection of customizable icons to enhance the app's visual appeal.
- Designed and developed a user-friendly and efficient React application to help users manage their daily tasks effectively. Leveraging my skills in front-end development, I created an intuitive user interface that allows users to easily add, mark as completed, and delete tasks with just a few clicks.
- Technology Used:** React js, Nodejs, React DOM HTML, CSS, JavaScript

- Airbnb Clone** | May 2023 – June 2023

- Recreated core functionalities and design elements of Airbnb, including property listings, search functionality. Implemented a responsive design, ensuring a seamless user experience across various screen sizes and devices.
- Technologies Used:** JavaScript, ReactJS, CSS, React DOM, React hooks
