- Prepared test cases for **DEV** and **UAT** environment.
- In the Test Design document maintaining the specific requirement data.
- Testing application connections and Testing Database Objects.

### Talent Next Certified Skill: Mphasis

**Mphasis Skill Details:** MySQL Development, Software Testing Essentials, HTML5 & CSS3, Shell Scripting,

### Technical Competencies

Tools	: Pg Admin, Tableau, MySQL workbench , Informatica Power Center.
Database	: Microsoft SQL, Postgre SQL.
OS	: Windows
Skills	: Functional/Manual, ETL testing ,API testing , Control M, Performance Testing.
Office suites	: Ms Office (word, excel, power point)

## Experience Summary

Project Name	HLT DCM
Organization	Mphasis
Duration	15 Aug 2022 – Till Date
Environment	ETL , Functional / Manual Testing, Control M and API Testing , Pg Admin, My Sql ,Performance testing .
Role	Test Engineer

### Description of Project:

HLT DCM is an application modernization and data center migration-based project. In this we have 10+ client applications. As a scope, we will be modernizing the applications and deploying those in either AWS Data center or client's data center.

### Responsibilities:

- Testing application connections and Testing Database Objects.
- Preparing Task list and scope documents
- Writing Test case Design.
- Premigration and postmigration testing and metadata check.
- ETL Testing with My SQL And checking data with Legacy and AWS Environments.
- Running Jobs through Control M and checking the data in database.
- API Testing with Postman.

Project Name	CCB - HLT - Info1 Remediation Phase 1
Organization	Mphasis
Duration	8 -oct-2021 to 14-Aug-2022
Environment	ETL , Functional / Manual Testing, Control M and API Testing , Pg Admin, My Sql ,Performance testing .
Role	Test Engineer

### Description of Project:

We are Migrating from Oracle to GOS cloud environment. Also, we have Migrating Oracle 11G to 19C Database Migration.

### Responsibilities:

- I have verified the database objects validity and migrating objects with data.
- Maintains application connections and Support Application issues & automation Jobs.
