I am a Veteran. An alumnus of the Indian Air Force (IAF). Energetic, self-starter and team builder. Navigates high-stress situations and achieves goals on time and under budget. The force has inculcated in me a never say die spirit. Ready to obtain a challenging role in the corporate world with a dynamic organization that enables me to utilize and enhance my skills and experience.

WORK EXPERIENCE

The IAF gave me excellent opportunities. I would like to elucidate:

- 20yrs of experience of handling advanced Electronics systems used for providing Communication, Radio Navigation and Directional Aids in ground to ground and ground to air applications used in Static, Mobile and Manpack operations.
- Extensive experience of Air Traffic Control (ATC) and its aerodrome services.
- Trained to carry out operation and maintenance (Ist and IInd line) of systems provided from OEMs like USA, Israel, Russia, U.K, Sweden, South Africa and Japan used in IAF communication domain.
- Trained in the field of Electronic Warfare and worked on systems of OEMs like Bharat Electronics systems (BEL) and Electronics Corporation of India (ECIL).
- Inventory management, procurement and storage of spares, quality control, tracking of faulty spares and logistics procedures.
- Maintaining office documents, interdepartmental, civil correspondence, liasioning With Vendors, Contractors and other organizations.
- HR Management, conducted lectures, continuity classes and on job training for technical staff.
- Trained in the field of security of man, material (Counter Sabotage), Information and counter-intelligence. Ability to safely and effectively use of small firearms and automatic weapons and proficient in handling and management of fire-fighting equipment.
