CAPSTONE PROJECT: E-CART (SHOPPING APP)

Jun 2021

E-Cart allows you to walk away from the drudgery of cloth shopping and welcome an easy relaxed way of browsing and shopping for clothes. Discover new products and shop for all your cloths needs from the comfort of your home or office. No more getting stuck in traffic jams, paying for parking, standing in long queues and carrying heavy bags – get everything you need, when you need, right at your doorstep.

Responsibilities –

- Developing the Code as per the requirements.
- Developing applications using JAVA, Spring MVC, Spring Boot and TOMCAT.
- Database used is MYSQL.
- Used VS CODE for writing the complete code.
