PROJECT DETAILS

1. Project Name: A Light weight Secure Data Sharing Scheme for Mobile Cloud Computing

Database MySQL

Period 6 Months

Project Description: Cloud computing data , mobile devices can store/ret personal data from anywhere at any time.

The data security Problem in mobile cloud becomes more and more severe and Prevents further development

involves the construction of machine learning classifiers from labelled text instances. Another means is to use a

lexicon-based model that involves computing orientation for a document from the semantic orientation of words or

phrases in the document. The system is more effective due to LOGISTIC REGRESSION CLASSIFICATION and learning
