OBJECTIVE

Looking to apply practical data science experience in a junior data engineer role. Proven ability to increase data extraction efficiency and accuracy, with strong skills in research and programming methodologies.

TECHNICAL SKILLS

- **Database:** RDBMS, Oracle, MYSQL, SQL Server Management Studio (SSMS)
- **Operating Systems:** Windows 7, XP, Windows Server 2008, Windows 10
- **Languages:** C, C++, Java, Python
- **Web Technology:** XML
- **Tools:** MS Office 2010

SKILLS

- Matplotlib.pyplot
- NumPy
- Pandas
- SciPy
- Scikit-learn
- Seaborn
- Data Visualization
- Power BI

INTERNSHIP & PROJECTS

Data Scientist Intern | Intellipaate Software Solutions Pvt Ltd

01/05/2022 - 31/04/2023

Capstone Project | [Link](#)

Problem Statement 1: A retail store that has multiple outlets across the country is facing issues in managing the inventory - to match the demand with respect to supply.

Dataset Information: The walmart.csv contains 6435 rows and 8 columns.

Problem Statement 2: An online retail store is trying to understand the various customer purchase patterns for their firm, you are required to give enough evidence-based insights to provide the same.

Dataset Information: The online_retail.csv contains 387961 rows and 8 columns.

EDUCATION

Diploma in Computer Technology

MSBTE

72.33% | 2011

CERTIFICATION

PGP in Data Science and Machine Learning -

MITxMicroMasters and Intellipaate
84% | 2023

SPECIALITIES

- Data Mining and Statistical Analysis.
- Mathematical and Applied Statistics.
- Data Management. Statistical computing.
- Analysis and model-building with large datasets and databases.
