## SUMMARY

I am a dedicated and experienced software engineer with 2+ years of professional experience in Java, Spring Boot, and MySQL. My primary focus has been on backend development using the Spring Boot framework. I have actively contributed to the success of my company's projects, playing a crucial role in the backend development.

## EDUCATION

### Sipna College of Engineering and Technology

BE ( ENT C ) 2016 -20  
CGPA: 9.02/10

### Art's, Commerce and Science College

XII 2015-16  
Percentage: 86.31 %

### Saraswati Vidyalaya

X 2013-14  
Percentage: 90.4 %

## SKILLS

- **Programming Languages** : Core Java, JavaScript
- **Technologies & Frameworks** : Spring Boot, Hibernate ,Microservices(Basic), REST API, HTML,CSS , Angular
- **Databases** : MySQL, H2 Database
- **Development Tools** : Eclipse, Spring Tool Suite (STS), MySQL Workbench, VS Code ,IntelliJ Idea
- **Other Tools** : JIRA, Postman, Github , Git

## CERTIFICATIONS

- **AWS Certified** - AWS Certified Cloud Practitioner (Feb 2023).
- **Java Backend Developer** – Geeks for geeks(Jun 2022).
- Microservices with Java Springboot and Spring Cloud -**Udemy** (April 2023)
- Vue JS 3 Modern Web Development with Vuex & Vue Router - **Udemy** (Feb 2023)
- Java and SQL Certification- **Hacker Rank**

## PROFESSIONAL EXPERIENCE

### Software Engineer

TEKsystems Global Services | 03/2023 - Current

- As part of a backend development team, I played a pivotal role in modernizing and optimizing legacy applications by converting old EJB (Enterprise JavaBeans) code into Spring Boot, ensuring improved performance, scalability, and maintainability.
- Communicating with clients to gather the business requirements, give demos, and receive feedback to make sure there is a positive impact on the business processes.

### Associate Engineer

TEKsystems Global Services | 10/2021 - 03/2023

- As a part of the backend development team, I played a vital role in a significant project that involved developing a scalable and secure web application using Spring Boot.
- Tested methodology with writing and execution of test plans, debugging and testing scripts and tools.

### Trainee Engineer

TEKsystems Global Services | 07/2021 - 10/2021

- Worked in a dynamic team environment guided by mentors to get hands-on experience and develop business-level applications.
- Built a complete **Online Quiz Portal** with role-based authentication and authorization.

## HONORS & AWARDS

- Received appreciation from a client for spontaneous and exceptional effort in the project for displaying dedication, commitment, and ability to go above and beyond to deliver value to the customer in Project.
- University Rank 9th Holder in BE (E & TC).
- Merit Scholarship received from multiple organizations like LIC, NMMS, IOCL, and Lila Poonawala Foundation
