RPA Developer/Programmer analyst with 2.5+ years of Industry experience in Automation Anywhere and UiPath, committed to leveraging my expertise in RPA to drive efficiency and enhance productivity. Seeking opportunities for professional growth and the chance to make a significant impact in the field of expertise.

WORK EXPERIENCE

Cognizant. (September 01, 2021 - Present)
Programmer Analyst - Bengaluru

Working as a Programmer Analyst on Automation Anywhere Technology where I have worked in CSSP Global Follow Up Project as Junior Developer and Cargill Support Project.

To deploy RPA Solutions, define plans to configure HA/DR plans, schedule bots and manage access control resource allocation and operational performance.

Migrate Bots from Enterprise V11 to Enterprise A2019, develop, deploy bots to provide solutions to business requirements.

Cognizant. (April 01, 2021 - August 31, 2021)
Intern - Hyderabad

Worked as an Intern for 6 months in Cognizant.

Got trained in RPA Technology with industry specific hands-on experience.

Gained sound knowledge in industry processes and RPA application methods.
