

Aleena Benny

Consultant

As a highly qualified Btech Computer Science professional with over 6 years of dedicated work experience as a Software Engineer Consultant across diverse domains, including healthcare, web development, and ship management, I am driven to excel in every challenge I encounter. My proven track record of successfully managing multiple roles and consistently delivering outstanding performance, even in challenging situations, speaks to my commitment to excellence. I bring proficiency in all phases of the Software Development Life Cycle (SDLC), with a particular focus on front-end development. I have 3.10 years of experience in ReactJS, demonstrating my expertise in creating dynamic and user-friendly web applications. I am a quick learner who thrives on challenges, firmly believing that with the right mindset, anything is achievable. I am now seeking an opportunity to leverage my extensive experience, technical skills, and unwavering dedication to contribute effectively to innovative projects and dynamic teams. My goal is to help drive success, foster innovation, and exceed expectations in every endeavor I undertake..
