PROFESSIONAL SUMMARY

As a dedicated Software Engineer with over an year of experience in designing, developing, and managing innovative software solutions for the healthcare industry. I contributed significantly to the successful execution of three hospital projects, including DMH, DMCH, and PCMC, where I learned to streamline hospital operations, enhance patient care, and improve data management. Proficient in Java 8 and SQL, I am dedicated to delivering cost-effective solutions on time. My passion for using technology to solve problems drives my commitment to excellence in software engineering. I am actively seeking new opportunities to apply my skills and expertise across various industries, ready to bring my innovative approach to any challenge.
