ACADEMIC PROJECT DETAILS

- Project Title :- Online Food Ordering System
- Technology :- HTML, CSS, Bootstrap, JavaScript, Php, MySQL
- Description :- Online Food Ordering System that I am proposing here, greatly simplifies the ordering process for both the customer and the restaurant. System presents an interactive and up-to-date menu with all available options in an easy-to-use manner. Customer can choose one or more items to place an order which will land in the Cart. At the end, customer gets order is placed it is entered in the database and retrieved in pretty much real time.
- Project Title :- Sky Tours and Travels
- Technology :- HTML, CSS, Bootstrap, C#, SQL Server
- Description :- This application is developed to provide best travelling service to the customers and travel agent. We have developed tours and travel management system to provide a search platform where a tourist can find their tour place according to their choice. These system also helps to promote responsible and interesting tourism so that people can enjoy their holiday at their favourable place.
