Experience

Team Lead

• AECInspire India Pvt Ltd Feb 2017 - Present

Project: **Inspire Web App**

Inspire is a cloud-based platform that extracts data from 3D Building Information Modeling (BIM) models and provides comprehensive Bill of Materials (BOMs) using predefined rules based on specifications and code requirements.

Features and benefits of AECInspire include:

- Ability to check 3D models against code compliance and project specification
- An interactive 3D model viewer allows users to easily navigate 2D documents and 3D models.
- Ability to generate a reliable real-time bill of materials and bring visibility to all project stakeholders
- Integration with supplier's and manufacturer's product databases reduces time spent by the field and purchasing personnel.

Technologies: ASP.NET 4.8, Asp.net core 6.0, Postgres SQL, Bootstrap, Angular 12, Microservices, Swagger, node.js

Project: **SPM (Sanveo Project Management)**

The objective of this portal is to provide a facility for employees to manage their projects with detailed information and maintain the time log hours on day to day basis.

Technologies: Asp.net MVC, MS SQL 2012

Web Developer

• EAthena Solutions Oct 2011 - Aug 2012

The objective of this portal is to provide a facility to visitors where they can browse e-books and perform operations like selecting answers for multiple choice questions/matching the following items/filling the blanks etc. Creating Js functions to perform this operation.

Technologies: JavaScript, HTML.

Junior Web Developer

• Luregalore Oct 2010 - Sep 2011

The objective of this portal is to provide a facility to visitors so that they can browse online exams of different packages and appear for them. The administration side of this site allows adding, deleting and modifying exams, questions, and packages. Creating web pages, and CRUD operations at the back end.

Technologies : Asp.net (3.5), HTML, CSS, SQL 2005/2008.
