### **PROJECT DETAILS:**

#### **Mini project:**

**Title:** Experimental study on partial replacement of sand by quarry dust in M20 grade concrete

**Description:** In this project we have investigated the study of quarry dust as partial replacement of fine aggregate in concrete. Mix design has been developed for M<sub>20</sub> grade (1:1.5:3) for conventional concrete and replace mix.

#### **Major project:**

**Title:** Experimental study on geopolymer concrete using glass fibers in M20 grade concrete.

**Description:** The effect of inclusion of glass fibers on the density and compressive strength of the hardened geopolymer concrete composite was studied.. Glass fibers are added to the mix in volume fractions of 0.1%, 0.2%, 0.3% and 1% by quantity of the total materials

### **Skill set :**

- Software Packages : MS-OFFICE , C- LANGUAGE, AUTOCAD

### **Personal Profile:**

Name	:	Goddenla manisha
Father's Name	:	G. Srinivas
Gender	:	Female
