

Roshni Maurya

Software Test Engineer

I am a dedicated Software Test Engineer with extensive experience across diverse software products. My proficiency includes test case development, test plan creation, and use case identification. I possess a comprehensive understanding of the entire software development lifecycle, enabling me to contribute effectively at every stage. I have had the unique experience of being the **sole QA professional in two SaaS-based companies**. My domain expertise encompasses **Social Networking, Fintech, and Developer Tools**, reflecting my adaptability and ability to excel across various industry sectors.
