WORK EXPERIENCE

Experience	Name of The Organization	Technology	Duration
1.	CGI Information Management Systems and Consulting	Angular	July 2021 – August 2023
2.	CGI Information Management Systems and Consulting	Wintel / VMWare	Jan 2019- July 2021

EDUCATIONAL QUALIFICATIONS

B.E completed from Visveswaraya Technological University, Bangalore in 2018.

TECHNICAL SKILLS:

- **Web Technologies:** HTML, CSS, Angular, JavaScript
- **JS Frameworks:** Angular 11.
- **Programming Languages:** JavaScript.
- **Version Control System:** GIT.
- **Operating Systems:** Windows.
- **Debugging Tools/Testing:** Firebug, Chrome DevTools. **IDE:**
- **Software Tool:** Visual Studio Code.

PROJECT EXPERIENCE

Project 1: AIFA (AI For All)

Internal Project: AIFA

Duration: July 2021 to Jan 2022

Team size: 12

Environment: Angular 11, JavaScript, HTML5, CSS3

Roles & Responsibilities

- Designed dynamic and multi-browser compatible pages using HTML, CSS, JavaScript and Angular11.
- Used Angular 11 components like modules, controllers, and built-in and synchronizing models with single page Applications (SPA).
- Using CSS pre-processor SASS to make CSS more efficient and used Bourbon a lightweight Sass tool set that helps you write more effective style sheets.
- Experience integrating RESTful services (APIs). Used JSON for data transfer between front end and back end, used SQL Queries to interact with Oracle database.
- Worked on Cross-Browser compatibility and fixed the bugs for several browsers.
- Used Firebug to debug JavaScript, to analyse DOM objects of the page and to change the pagelayout.
- Used GitHub as version control.

Project 2: SI (Service Insight)

Internal Project

Team Size: 10

Environment: Angular 11, JavaScript, HTML5, CSS.

Roles & Responsibilities

- Hands on experience on creating KPI's (Key Performance indicator), Routing, Binding, fetching dynamic data from APIs and PG Admin (postgressSQL13) to store and run the DB scripts in PG Admin.
- Implemented responsive design using HTML and CSS resulting in a 15% increase in user engagement.
- Have knowledge on to run Logstash queries in Kibana with GET methods.
- Responsible to style, look and feel of the web page that extends CSS with dynamic behavior such as variable mixing, operations, and function.
- Used Angular components like modules, controllers, and built-in and synchronizing models with single page Application (SPA).
- Worked with JIRA, which is managing project requirements and tasks. Used GitHub as version control.
- Experience integrating RESTful services (API's). Used JSON for data transfer between front end and back end, used Logstash Queries to interact with PG-Admin
