---

### Summary:

---

Software QA professional with more than 17 years of experience in Performance testing, Functional testing and Automation testing. Have experience of handling team of 6 people. Good mentoring skills. Versatile background with all types of testing, looking for a challenging role to lead the team of testing professionals and broaden my knowledge into test management areas.

---

### Experience:

---

*Lead quality Engineer- performance testing - BA Continuum India Pvt Ltd., Mumbai*

**May 2007 - Till present**

Project: TAMS, ITSM Remedy Performance testing

(Aug 2012 – Till Present)

Tools: Loadrunner VuGen 12.5, Performance Center 12.5, Data native tools(DNT), Server Healthcheck, Loadrunner analysis, MS Excel

- Working as senior performance testing professional handled performance testing related tasks.
- Experience in automation of Performance testing (Load testing, Stress testing, Volume testing, Soak testing) using HP Load Runner
- Extensive experience in creating load tests plans, creating and executing automation scripts using tools like Load Runner, Performance Center.
- Adapt in end-to-end software testing from requirement analysis to designing, coding, testing & de-bugging.
- Scripting experience with HTTP/HTML protocol, Rest API protocol.
- Involved in writing Test Plans by incorporating Performance Testing Objectives, Testing Environment, User Profiles, Risks, Test Scenarios, Schedules and Analysis, Monitors and Presentation of results.
- Knowledge in multi-tiered distributed applications including web servers, application servers and databases.
- Assisted Application Developers and technical support staff in identifying and resolving defects.
- Created scenarios and scheduled the Virtual Users to generate realistic load on the server using Load generator machine.
- Gathering the Test Input data. Test Input data includes Pre-condition, Test Input, Test Result, Test Regression data.

Project : WorkIT Performance testing

(Oct 2017 – till date)

Tools: Loadrunner, Performance center

- WorkIT is a mobile app.
- Performed the lead role in this project as well.
- Setup and discussed project requirements and analyzed the Performance requirements or scripting guidelines with US coordinator and project owner.
- Created POC documents for all the shortlisted flows in the application.
- Mentored the entire team for new scripting practice.
- Successfully delivered 6 scripts of this module within short deadline like 1 month and achieved 100% results in first Performance test itself.
- Got recognitions from US counterpart for my contribution for this project.

Project : PRODCert Automation Testing

(Jun 2017 – till date)

Tools: Silktest Workbench, Silk Central, MS Excel

- Main objective of this project is to automate the Production certification/checkout activity.
- Total 22 End to End flows are short listed and automated during this project.
- Handled all the activities related to this project, right from requirement gathering, finalizing or shortlisting the usecases. Documenting them. Mentoring team for the project activities and requirements. Process plans and distributing it to the team.
- Handles all activities as a leader for this project involved 5-7 resources.
- Setting up meetings with US coordinator daily /weekly.
- This project is currently running in SIT/UAT lower level environment with 100% pass rate.

Project : Automation of E2E ITSM Remedy critical transactions

(Dec 2013 – Dec 2014)

Tools: Silktest Workbench, Silk Central

- Worked on Silktest workbench 13.5 to develop automation scripts for End to End workflows in ITSM remedy project.
- Worked and trained people on silkcentral.
- Handled team of 3 people for automation testing using silktest.
- Upload the script to Silkcentral and schedule and monitor the execution.
- Monitor the reports, executions and present it to the management.
- Create and debug the silktest scripts.
- Provided automation testing tool Silktest training at organization level.

Project : Maximo, eSmart performance Testing

(Dec 2010 – Feb 2013)

Tools: Loadrunner VuGen 9.52, Performance Center, Data native tools(DNT), Server Healthcheck, Loadrunner analysis, MS Excel

- Worked on all the stages of performance testing. Performed role of individual contributor.
- Automating and implementing performance test.
- Developing scenarios for performance test.
- Giving feedback to the development team with possible improvements and discovered issues/benchmarks.
- Evaluating product reliability and scalability.
- Searching out performance issues before the product ships.
- Finding efficient ways of automating of performance tests.

- Developing and uploading scripts to BPM and keep the record of reports.
- Keep track of failures at BPM and notify the respective teams.

Project : BPM using QALoad

(Feb 2012 – July 2012)

Tools: QALoad

- Developed scripts using QALoad
- Developed usecases for the guidance to the team.
- Created, Debug and execute the scripts using QALoad.
- Mentored team by documenting QALoad guidelines.
- Successfully worked on QA load assignments.
- Created QA load guidelines document for the team.

Project : CFC to bank of America transition Project

(Oct 2009 – April 2010)

Tools: QC, Manual testing of Web applications, Remedy, SSRS

- During CFC to Bank of America transition projects performed manual testing for web application using Quality Center.
- Develop test specifications, test cases, test plans and scripts for the large software modules, and oversees the execution of these plans by other team members.
- Tested SSRS reports using SQL Server 2005 database. And delivered quality reports as per the client's specification.

Project : TMS Web application manual testing

(May 2007 – Sep 2009)

Tools: Manual testing of Web applications, Remedy, SSRS, Crystal reports

- Tested SSRS reports using SQL Server 2005 database. And delivered quality reports as per the client's specification.
- Tested ETL jobs which are developed or modified to pull the data into Data warehouse tables. Review the execution and changes. Testing (Database and Design) as per specifications and standards defined by the client or as per the BA requirement docs.
- Testing Crystal Reports using crystal report software and SQL Server database.
- Review the stored procedure code or other code developed by development team to ensure technical compatibility and user satisfaction

***Executive IT Programmer - I-process service provider of ICICI Bank Ltd, BKC  
Feb-2006 to May-2007***

Worked on ICICI Bank, Collection Group MIS site, Legal Site database maintenance, as well as server maintenance. Partially handled responsibilities as a DBA. Posses below mentioned expertise:

- Strong RDBMS Concepts /T - SQL Programming skills
- Regular Database Objects & Basic SQL Server Architecture and Transaction handling

- Tables, Write Stored Procedures and Triggers, Indexes, Cursors
- Database designing & Creating updating and deleting objects 5.Performance Tuning, Locking and DTS (Data Transformation Services)

### ***Web Programmer - Internet Axis, Bandra***

***May-2005 to Jan-2006***

Worked on development and maintenance of web application developed by Internet axis.

#### **Representative Project Experience:**

##### **E-Commerce Sites & Web Applications (For Internet Axis)**

**1. Client Name:** Crafts Temple Ltd.

**Duration:** May 2005 – Oct 2005.

**Site:** <http://www.craftstemple.com>

**Summary:** E-commerce site which deals in online business of crafts.

**Technologies used:** HTML 4.0, ASP 3.0, JavaScript 1.2, MS SQL Server 2000.

**2. Client Name:** ICICI Bank Ltd.

**Duration:** Aug 2005 – Sep 2005.

**Site:** [http://www.craftstemple.com/site\\_pages/default.asp](http://www.craftstemple.com/site_pages/default.asp)

**Summary:** E-commerce site which deals in online gift shopping for ICICI Bank employees only.

**Technologies used:** HTML 4.0, ASP 3.0, JavaScript 1.2, MS Access.

##### **Websites (For Internet Axis)**

**1. Client Name:** Varal LLC

**Site:** Varal UAE

**URL** <http://www.varaluae.com>

##### **Miscellaneous Jobs (For Internet Axis)**

- Online application forms for ICICI Bank Credit Cards section and ICICI Bank NRI section.
- Online loan calculators for ICICI Bank NRI home loans section.

---

#### **Educational Qualification:**

---

Completed	Year	College/school	University	Percentage
PGDBA (IT & Systems)	June 2014	Correspondence	ICFAI	-
B.Sc. (Computer Science)	March2004	Birla College, Kalyan (w)	Mumbai	65%(Aggregate)

HSC	March2001	Birla College, Kalyan (w)	Mumbai	57%
SSC	March1999	N.R.C.School, Mohone, Kalyan	Mumbai	81%

---

### Trainings attended:

---

Technical : QTP, Test Management

Behavioral : DISC, Problem Solving & Decision Making, Taking Initiative in Change Environment, Team Synergy, Powerful Presentation Skills, Executive Presence, Influencing with Impact

---

### Certifications:

---

- ITIL Foundation V3 Certification
- ISTQB Foundation Level

---

### Recognition:

---

- Received Woman achiever award in 2017 at organization level.

---

### Personal details:

---

**Date of Birth** : 7th May 1984

**Gender** : Female

**Marital Status** : Married

**Husband name** : Kailas Mahajan

**Languages known** : English, Hindi, Marathi

**Hobbies** : singing, travelling, listening music
