## Career Objective

A dedicated individual with a B.Tech in Computer Science and Engineering searching for a challenging role at a progressive organization that offers immense growth opportunities and to implement my advanced knowledge and skills to contribute to the success of the organization.

## Educational Qualification

Degree	Year of Passing	CGPA/10
Bachelor of Technology (G. L. Bajaj Institute of Technology and Management, AKTU)	2018-2022	8.05
Intermediate (CBSE Board)	2016-2017	8.32
High school (CBSE Board)	2014-2015	9.40

## Experience

- Accenture (Associate Software Engineer, Dec'22-present):-**
  - Trained in cloud-native micro services worked on various technologies (JavaScript, Node.JS, MongoDB, MySQL).
  - I have experience in working with AWS (EC2, ECS, CloudWatch), Splunk, AppDynamics, Service Now.
  - Run all type of health checks in Prometheus and 1k eyes.
  - I have worked with AppD and Splunk for monitoring incidents and nodes.

## Internships

- Codeif Technologies (Front-end Developer, 3 mon):-**
  - Building of visual elements of a website or app that a user will interact with.
  - Converting data to a graphical interface, so that users can view and interact with that data.
- Expert (Graphic Designer, 1 mon):-**
  - Designing of manifold logos, posters, infographics, doodles, story writing etc.
  - Learned a better way to communicate with the clients.
- BSNL (Data Science, 1 mon):-**
  - Learned about various interdisciplinary fields that use scientific methods, processes, algorithms and systems to extract knowledge.
  - Learned to apply knowledge from data, across a broad range of application domains.

## Trainings

- Wipro (Java Developer, 4 mon):-**
  - Learned about various functions, libraries and OOP concepts.
  - Learned about various real-time applications based on the varied java concepts.
- HCL Software (DevOps Engineer, 6 mon):-**
  - Learned about various models, combination of practices and tools designed to increase an organization's ability.
  - Various methodologies to balance needs throughout the software development life cycle, maintenance and updates.

## Projects

- Social Networking Site**
  - Developed front-end of the website using HTML, CSS, JavaScript and Bootstrap.
  - Created login/signup page and linked with different other sites for the news headlines, health consultancy and other features.
- E-commerce website**
  - It was my start-up, it was related to POD services. In this website too I designed and developed the front-end of the site.
  - Designed all the designs of the product on my own using different tools like illustrator, photoshop, canva, .
  - Used different platforms for the designing like:- Adobe indesign, Figma etc.
- Motor website**
  - Worked on front-end of the site. Created multiple pages and linked them.
  - Designed the webpages by using Figma.

## Extra Curricular

- I also did freelancing in designing field like designing portfolios, clothing designs, logos, web designs etc.
- I also have been involved in numerous debate competitions, speech competitions etc.

## Technical Skills

- C programming
- HTML 5
- CSS
- JavaScript
- SQL
- Cloud Computing Concepts
- Agile
- Computer Networks
- AWS
- Azure
- Service Now
- AppDynamics
- Splunk
- Nodejs
- Linux
