Summary

Dedicated QA professional with strong manual and automated testing skills. Proficient in test case design, end-to-end testing, and collaboration with development teams. Skilled in tools such as Selenium, Postman, and JIRA. Committed to ensuring software quality and ready to make a positive impact as a fresher in the field.

ACADEMIC DETAILS:

- Bachelor of Technology in Information Technology**
Walchand Institute of Technology, Solapur, India
Aug 2016 – Jul 2022
CGPA: 8.21/10
- Higher Secondary Certification**
Kolhapur Board, India
Jun 2015 – Mar 2016
Percentage: 63.38%

PROJECTS:

QA Testing of Educational Blogging Website

Sep 2020 – Aug 2021

- Collaborated in a team to ensure the high-quality performance of an educational blogging website, focusing on managing blog posts, user interactions, comments, and queries within an intuitive platform.
- Played a pivotal role in quality assurance, dedicating 20-30% of time to rigorous testing, identifying, and reporting issues for swift resolution.
- Worked closely with developers to resolve problems and maintain a user-friendly and efficient platform.
- Conducted comprehensive cross-browser testing to identify and efficiently report UI defects, ensuring swift issue resolution.
- Utilized automation tools such as Selenium to significantly improve test coverage, resulting in more comprehensive quality assurance. This automation effort not only saved time but also enhanced test consistency and effectiveness, contributing to the overall project's success.

QA Testing of Web Portal for Online Agri-Auction

Sep 2021 – Dec 2022

- Managed the QA process for an online Agri-auction web portal, integrating value-added services and ensuring the safety and authenticity of products.
- Dedicated 20-30% of my time to thorough testing, ensuring that the platform's features and functionalities met the highest quality standards, instilling confidence among users.
- Leveraged HTML, CSS, JavaScript, Ajax, and jQuery to create dynamic and user-friendly frontend elements, while effectively employing PHP and MySQL for a robust backend system that ensured efficient data management.
- Worked in close collaboration with cross-functional teams to gather and implement project requirements, ensuring the seamless integration of UI components, and enhancing the overall usability and performance of the platform.

TECHNICAL SKILLS:

- UI Testing:** Manual and Automated (Using Selenium and Appium)
- Backend Testing:** API testing (Postman, REST Assured)
- Programming Languages:** C, Python
- Framework/Libraries:** React, Bootstrap
- Bug Tracking Systems:** JIRA, Bugzilla
- Databases:** SQL

CERTIFICATES:

- Programming in C** | NPTEL Online Certification **2018**
- HTML Certificate** | Lumos learning **2020**

- **JavaScript Certificate** | Let's Upgrade **2022**
- **Web Development and ReactJS** | Seven Mentor **2023**
- **Software Testing** | Great Learning **2023**

EXTRACURRICULAR ACTIVITIES:

- **Member, Information Technology Club**
Actively participated in a variety of coding competitions, workshop on software testing and quality assurance, enhancing problem- solving abilities, and staying abreast of the latest industry trends.
- **Volunteer Coordinator, Local Tech Events and Hackathons**
Played a vital role as a volunteer coordinator for two prominent local tech events, overseeing event logistics, participant engagement, and ensuring seamless execution.
