PERSONAL PROJECTS

React Admin Dashboard (02/2023 - 04/2023)

- The React Admin Dashboard Project is a dynamic and responsive web application designed to streamline and enhance the management of data and resources in various domains.
- The dashboard boasts a user-friendly and visually appealing interface, carefully crafted with React's component-based architecture. This ensures a seamless user experience and promotes ease of navigation.
- Users have the flexibility to customize their dashboard by adding, removing, or rearranging widgets according to their specific needs. This empowers them to tailor the interface to their preferences and priorities.
- Skills Developed: React js , Context ,redux .

E-Commerce Website (04/2023 - 06/2023)

- On my e-commerce website, you have incorporated a user-friendly sign-in and sign-out option using Gmail authentication..
- By integrating Gmail authentication, you've streamlined the registration process and added an extra layer of security, making it more convenient and trustworthy for your users.
- An e-commerce website is an online platform where users can browse, shop for, and purchase a wide variety of products and services from the comfort of their own homes.
- Skils : Developed :HTML, CSS, Javascript , Bootstrap, React js

CERTIFICATES
