PROJECT:**Cindias Private Limited****Nov 2022 to Present****Java Developer****Key Deliverables:****RETELL INDIA (MLM– Multi-Level Marketing):**

Retell India application is based on MLM concept. It follows a Tree structure. It is basically a financial concept where multiple users can invest their money and gain profits. This is an easy and eco-friendly application for connecting multiple people and calculating their commission, return on investment etc. The main key aspects are Company, Agents, Customers(users). Retell India helps in registration of users/providing referral Id/collecting bank details and generates commissions automatically. This will reduce the manual process by admin and helps for the growth of an organization.

Following are the different modules of the application:

- Registration: A free registration for all users with Agent referral Id(mandatory).
- Activation process: User name and password, automatic ID generation, Investment, Activation wallet.
- Bank: Need all bank details for transactions and wallet generation
- Wallet:
 - This module includes different wallets as below
 - 1. Fund Wallet
 - 2. Withdraw Wallet
 - 3. Income Wallet
 - 4. Utility Wallet
- Commission: Generating commission based on levels for agents.

Technology Stack:

Java 1.8, Spring boot RESTFUL web services, Spring data JPA, Lombok, Spring MVC, Heidi SQL, MYSQL database
