TESTING

Meet Prerna!

I am a skilled software tester with a Bachelor of Computer Applications Engineering degree and experience in testing complex software applications. My expertise lies in programming languages such as Java, Python, and C. I possess excellent analytical and problem-solving abilities, as well as effective communication and teamwork skills. Overall, I am a dedicated and valuable asset to any organization seeking a competent software tester.

PROJECTS

Online Library Management System Oct 2021

- Apr 2022: - In this project "Online Library Management System" is developed in C#, which mainly focuses on basic operations in a library like adding new member, new books, and updating new information, searching books and members and facility to issue and return books. Using this web application user can make the booking.

Web Application Testing Automation using Selenium Framework

Mar 2023 - Mar 2023: - In this project, I developed a "Maven Project" using Selenium WebDriver and core Java on Eclipse IDE to automate testing for Global HRMS, GSPLadmin's London-based platform. Created 10 automation scripts and implemented Selenium Framework with TestNG, POM, and Data-Driven approach for efficient and maintainable testing.

WORK EXPERIENCE

Trainee Consultant For Software Tester at Geecon Systems · Internship Since 2022 :

Working as a Trainee Software Tester intern with experience in both Manual and Automation Testing. Experienced in creating Maven projects using automation scripts for website scripting using the Selenium framework.
