

PROFILE

I am a passionate QA tester with over 3 years of experience. I am skilled in automation testing and creating test plans. I have created over 2000+ test plans and helped enhance testing efficiency by 25%.

EXPERTISE

- Basic Java, HTML, Python, Groovy Script
- Automation with Selenium java (Cucumber Framework)
- API with Postman, Soap UI, Test Cases, Plans & Scripts, Defect & Bug Discovery
- Acceptance Testing / Regression Testing UI & Compatibility Testing
- Scripting & Documentation Black & White box
- Mobile Automation with Appium tool
- Load Testing, Stress Testing, Jmeter, Tracking, Logging & Reporting Program Logic & Optimization
- Software Architecture Technologies
- Technical Specification Analysis System & Unit Testing

EDUCATION HISTORY

- BE from RITEE Institute of Technology | Passed in 2019
- HSC from M.A.K.A Jr. College | Passed in 2015
- SCC from Model English School | Passed in 2013

INTEREST/PASSION

- -> Finding bugs
- -> Solving puzzles
- -> Gaming
- -> Chess
- -> Taking Tours
- -> Watching Web Series
- -> Sketching

WORK SUMMARY

- Working in ValueMomentum Hyderabad Software Services Pvt Ltd as a Quality Engineer from Feb 2022 to till date
- Worked with Medvarsity online Limited.As Jr Software Test Engineer from Jan 2021 to Jan 2022.

EXPERIENCE OVERVIEW

AUTOMATION TESTING:

- Good Knowledge in developing automation scripts using **Cucumber BDD framework** integrated with **Selenium WebDriver**.
- Good Knowledge in implementing the scenarios in feature files, mapping of feature file to step definition files.
- Good Knowledge on running automation scripts.
- Running automation test scripts through Test Runner in Cucumber BDD Framework.
- Having knowledge in core java.
- Basic knowledge in **Appium** Tool for Mobile Automation Testing

API TESTING (MANUAL AND AUTOMATION):

- Hands on Experience in Testing the REST based Web Services using **SOAPUI** tool and **POSTMAN**.
- Creating Test Suites and Testcases and provided basic assertions and advanced assertions for Test Validations.
- Accessing the Custom Properties and Global Properties from Various levels using **Data Driven Framework**, i.e. Project level, Suite level, Test Case level, Step levels, Property Step level, Property Transfer, from an external file.
- Sending Values from response to another requests Using **Property Transfer Mechanism**.
- Automated the SOAP/REST services in SOAPUI using **Groovy Script** and **Script assertions**.
- Executing APIs using **POSTMAN**

PERFORMANCE TESTING :

- · Worked on **JMeter** to create Thread Groups and test Web Application using **SOAP/REST protocols** for various loads on key business scenarios.
- · Implemented test plans in JMeter to simulate real-world **load scenarios**, including **high traffic volume**, **concurrent users**, and **stress testing**.
- · Worked closely with business team, application team and identified their requirements and objective for performance testing.
- · Created **Reports/Graphs** using **JMeter**.

Reward

- Got extra mile Appreciation reward on 2023.
- Got Appreciation from the Product Owner for giving a Quite Impressive Suggestion in project review meeting and found most critical issues.
- Kudos for Teamwork Achievement, and successfully deliver bug free project in March 2022 and August 2022.
- Synergy Rewards for Inter & Intra Team Communication, July 2021
- Most Outstanding Employee of the Month, December 2021
- Kudos For 100% Work Achievement, February 2021

SKILL SUMMARY

Testing types:

Manual, Automation, API and Performance Testing.

Automated Testing Tools:

Cucumber BDD Framework, Selenium java, Appium

Tools Used:

Ready API, Postman, SoapUI, JMeter, Eclipse.

Bug Tracking Tools:

ADO, Bugzilla, Zoho.

Programming Languages:

Basic Java, Groovy Script, Gherkin, Python

Web Technology:

HTML, JavaScript, CSS

Databases:

My SQL

MANUAL TESTING

- Experience in working on Agile Scrum methodology.
- Strong knowledge of **Software Development Life Cycle** process, **Software Testing Life Cycle** process, **Bug Life Cycle (BLC)**, **Testing Methodologies**, **Testing Levels**.
- Involvement in different phases of **Software Testing Life Cycle (STLC)** and very well appraised of testing concepts.
- Good experience in **designing, developing, executing test cases**.
- Having Knowledge in writing Basic **SQL queries**.
- Experience in Bug tracking and reporting using Defect Management Tools (**ADO, Bugzilla**).
- Raising spike items in scrum with the product owner.
- Responsible for **Black Box testing** of application involved in **Functional Testing**, **End to End Testing**, **GUI Testing**, **Smoke Testing**, **Sanity Testing**, **Retesting**, **Regression Testing** and **Ad hoc testing**.
- Experience in adding test plan and adding user stories for **Test plan** and uploading test cases in **ADO** and raising bugs.

PROJECTS

- **BizDynamic** (Agent Portal, IU Portal, Unified admin, Policy Holder)

Insurance/banking Project, execute test cases (manual or automated) and analyze results.

- **Sales-CRM**

one platform to sell, deliver and support customers. Instead of using bunch of different applications, when you can just use sales which is easy and user friendly.

- **Healthjobs.one**

Medical job portal, Create logs to document testing phases and defects (manually)

- **ThankaNurse**

Medical courses portal, Ecommerce website for supply courses for nurse's students (manually)

- **Apollo Knowledge - Growth and learning beyond Academic**

Apollo Hospital Project, Ecommerce website for supply courses for medical students (manually and automated)

- **Medvarsity Onlined Limited**

Ecommerce website, Execute test cases.

- **LIBRARY MANAGEMENT SYSTEM - JAVAFOX**

Created a software which is useful for the school/college library with easy management and maintenance.
