- Worked as a **Software Test Engineer** at **Creshya Technologies pvt ltd**, Bangalore from 14th Feb 2019 to 30th March 2022.
- Worked as a **Trainee** at **SaiTech Integrated Solutions, Mysore** from October 2017 to December 2018

PROJECT SUMMARY

Project 1 – Emperia

Role : Software Test Engineer

Duration: April 2019- July 2020

Domain : Manufacturing

Project Description:

This application consists of various modules where in each module helps in performing the action of each department in the company. Every activity such as other customers placing an order for more materials with other suppliers, bringing the stocks/ products and dumping them in the warehouse, transferring materials and so on, each and every activity can be stored and tracked in this software.

Roles and Responsibilities:

- Involved in thorough system study using Requirement Specification Document
- Documented test scenarios and written test cases for different methodologies
- Performed test cases for Smoke, functional, Integration and System testing
- Participated in regular project status meetings related to testing.

Project 2 – Rapidez

Role : Software Test Engineer

Duration: July 2020- Mar 2022

Domain : Marketing

Project Description:

Rapidez it is a web based application and it is a business to business application, which helps in maintaining the customer details in an organised way. Application also has the capability of generating quotation, invoice, purchase and sales order in order to track their customers.

Roles and Responsibilities:

- Involved in Writing, Executing and reviewing test Cases.
- Responsible for Execution of smoke test scripts for every build deploy.
- Responsible for Execution of Regression Test Scripts for every release and publishing Results.
- Performing Functional, Integration, System Testing and Regression Testing.
- Participated in regular project status meetings related to testing.

Project 3- Deepblue**Role** :Software test engineer(contractor)**Duration:** July 2022- December 2022**Domain** : Networking**Project Description:**

Mydeepblue is a web based application, which helps in monitoring the devices which supports the wifi solution of need. This is a database for event tool(tool to create the event by the users) to manage the property. It delivers data about wifi infrastructure, utilization of bandwidth, upload and download speed of the wifi. Deepblue provides wifi for hotel, retail, and large entertainment venue as well as WiFi for Marinas, Race Tracks and Schools. Deep Blue Communications can provide with world-class IP network project management, professional wifi engineering and installation.

Roles and Responsibilities:

- Participated in regular sprint planning meetings
- Analysis of userstories
- Involved in Writing, Executing test Cases for API and UI.
- Involved in UI automation using cypress
- Performing Functional, API, Sanity and Regression Testing in different environment.
- Participated in regular meetings related to testing.
- Participated in regular scrum calls

Project 4- STAX**Role:** Senior Associate QA**Duration:** Feb 2023-Aug 2023**Domain:** Banking**Project Description:**

Stax is the only all-in-one platform of scalable business tech to manage financials, payments, invoicing, inventory, sales data, customers—whatever it takes to run the business. Stax gives business owners and software companies the tools they need to process payments in any environment. In addition, the Stax API empowers developers to create custom, on-brand payment experiences and tailor solutions to each business and platform's unique needs.

Roles and Responsibilities:

- Participated in regular sprint planning meetings
- Analysis of userstories
- Involved in Writing, Executing test Cases for API and UI.
- Involved in UI automation using cypress
- Performing Functional, API, ETL and Regression Testing in QA environment
- Performing E2E testing on Production
- Participated in regular meetings related to testing.
- Participated in regular scrum calls

I hereby declare that the above details furnished are true to the best of my knowledge.
