Indian

ACCOMPLISHMENTS

Certified in an Regional winners conducted in **thought works Technovation Challenge 2014 Program.**

Awarded the Best outstanding achievements in technology field, conducted by **Sri Akshayam awards** along with **Metoomentor Madurai.**

PROJECT DETAILS

Croppico – Phase3

04/2023 - 08-2023

The application was developed to grow a crop under the particular devices and use that grown crop into recipes, which are created by recipe types. Sending a notification to the mobile app once the crop is ready to use. The web application was developed to integrate their software in the future.

Skills Used: NodeJS, PostgreSQL

Smart Factory - SIM1

11/2022 - 03/2023

The application was developed for the management of dairy products. It will be used so the customer can know the processes like 'Wet Phase', 'Dryer', and 'Baggage'. The data will be shown based on shift timing, which is approved or rejected by the shift manager.

Skills Used: Angular 14, HTML5, SCSS

Cyber Shield

11/2021 - 08/2022

This web application was used to generate an insurance policy in four stages: 'Quote', 'Proposal', 'Payment', and 'Policy' through the '**Insillion**' server. Quote handles the basic details of the customer with a calculated premium. The proposal handles the validity of insurance. The payment contains online and NEFT. Finally, we get policy pdf at policy stage.

Skills Used: NodeJS, MySQL

Simtuitive

02/2021 - 07/2021

This website generated the aptitude questions from the API and integrated them into the web application. Each section contains five set of questions. We can move to the next level once the stage is completed.

Skills Used: Angular 10

ETH24 Clone 01/2020 - 06/2020 Crypto Bit 06/2019 - 09/2019

Both applications were developed to exchange the crypto currency online for trading. It contains coin integration and the ability to buy and sell coins, deposit, and withdraw crypto currency. Also, auto-update the current pair using Cron. There are three ways to buy and sell coins: instant, limit, and stop-limit.

Skills Used: Angular 6 & 8, NodeJS, MongoDB, Express
