### Technical Skills

- Java
- Selenium
- TestNG
- GitHub
- C
- HTML
- CSS
- MySQL
- Jenkins

### Soft Skills

- Observation
- Decision making
- Communication
- Time Management
- Multi-tasking

### Education Background

- JIS College of Engineering, Kalyani  
*Bachelors of Technology - Information Technology*  
2018-2022 **9.23 CGPA**
- Bidya Bharati Girls' High School  
*Higher Secondary, WBCHSE Science*  
2017-2018 **73.4%**
- Bidya Bharati Girls' High School  
*Secondary, WBBSE*  
2016 **86.5%**

### Certifications

- **Microsoft: Azure AI Fundamentals**  
Microsoft Certification ID: 993547291
- **Microsoft Certified: Azure Fundamentals**  
Microsoft Certification ID: 993547291
- **Cisco Networking Essentials**

### About Me

Passionate software engineer having 1+ year of experience working on **QA Automation, Java, CI/CD pipelines, Jenkins, MySQL**.

I am open to learn and work on new technologies and expand my skills gradually.

### Professional Experience

#### Software Engineer | Persistent Systems

02/2022 - 07/2023 | Pune, Maharashtra, India

Application Name: **MaaS360**

Key responsibilities:

- Proficient in automating live websites using **Selenium WebDriver and TestNG**, with a focus on critical use cases using **Page Object Model(POM)**.
- Created custom test cases to thoroughly **validate website functionalities**, ensuring efficient project management and dependency handling.
- Utilized **Extent Reports** to generate detailed test reports, providing with clear insights into test results.
- Showcased expertise in **CI/CD integration** by **integrating test automation with Jenkins**, enabling automated test execution upon each code commit

Application Name: **Secure Pipeline Services**

Key responsibilities:

- Conducted in-depth analysis of preexisting **Jenkins pipelines**, documenting and presenting detailed insights into **workflows and configurations** for enhanced clarity and understanding.
- Successfully transformed **scripted pipelines** into **Jenkins files**, ensuring improved maintainability and enabling seamless adoption by **SPS (Secure Pipeline Services)**.
- Played a key role in enhancing the efficiency and reliability of **CI/CD processes** by optimizing Jenkins pipelines for streamlined **software delivery**.

Application Name: **Certification Validation**

Key responsibilities:

- Developed and integrated the **Java backend (Hibernate)** for the Certification Validation application.
- Successfully fetched and processed data from **MySQL database** to validate certificates using **API endpoints**.
- Collaborated with the frontend team to seamlessly **integrate** backend functionality into the user interface

#### Software Trainee | HighRadius

08/2021 - 02/2022 | Bhubaneswar, Odisha, India

Key Responsibilities:

- Proficient in Selenium automation to develop and execute scripts for data retrieval from Excel with subsequent validation.
- Leveraged Excel integration with Selenium to efficiently fetch and verify data, ensuring accuracy and reliability of test results.
- Acquired expertise in efficiently organizing and managing time for maximum productivity and project success.
