PROFESSIONAL EXPERIENCE

Indian Air Force, Pan India
Junior Warrant Officer

Jun 2001 – Jun 2021

Responsibilities:

- Worked on recently introduced automation software like Integrated Materials Management Online Services (IMMOLS) and Electronic Maintenance Management System (e-MMS).
- Focused on demand forecasting and warehouse operations encompassing storage, documentation & movement of aircraft components, missiles, rockets, bombs, and other explosives in a controlled environment valued above 250 Crores.
- Implemented disposal management process for life-expired, discarded, and fired ammunition (Demolition) generating over Rs. 2 Crores. Involved in procuring tools and equipment for the world-class aviation maintenance hanger worth INR 5 – 6 Crores.

- Managed various portfolios in the IAF like in-charge of Armory, weapon storage areas, aircraft servicing hangers, tarmac operations, Bomb Disposal Teams, Quality Assurance Services, Quick Reaction Team, technical administration and airmen institutes at various bases handling a team of 50 to 450 personnel.
- Drafted and implemented 40+ SOPs to improve operational efficiency and eliminate untoward incidents/accidents. Planned and conducted periodic simulation exercises in collaboration with law enforcement agencies to rehearse responses to crises.
- Functioned as a member of the Command level Inspection Teams at five Air Force bases to evaluate combat readiness of maintenance and logistics divisions
- Guided team in snag rectification, maintenance, servicing schedule, and technical inventory management, resulting in effective resource management and aircraft availability. Managed flight line operations including logging aircraft and pilot data.
- Spearheaded teams in the development of 200000 sq.ft. Infrastructure and facilities planned for Technical Training Establishment.
- Planned and implemented strategic operations, logistics & supply chain processes to meet operational requirements during Uri, Balakot, and Galwan contingencies at the unit level.
- Organized a static display of fighter Aircraft and its Weapons during the Republic Day celebration, coordinated with local authorities, law enforcement agencies, local schools & veterans.
- Functioned as a member of the team involved in the integration of indigenous weapons to 4th gen fighter aircraft of Russian origin.
- Developed the Centre of Excellence for the Ejection Seat Servicing Infrastructure at a major airbase, improved serviceability and availability of resources worth INR 4-5 Cr. Rolled out employee facility upgrades to ensure the modernization of the workplace.
- Managed training-morale-discipline-assessment-welfare of 100+ personnel of unit for utmost administrative efficiency. Rendered counseling to keep the motivation and morale high of subordinate staff with technical acumen in adverse situations
- Organized training on new generation and cutting-edge weapon systems, including those of foreign origin to executives, supervisors, and entry-level workers.
- Conducted mission-based training for 100 personnel, with about 10 personnel being trained every month on all aspects of operation and maintenance of a 4th generation fighter aircraft and its ground support equipment
- Developed multimedia visual aids, and other educational materials for technical training institutes of IAF regarding weapon and ejection systems of a 4th gen fighter aircraft of foreign origin.
- Rendered supervision for 200 employees/ technicians for "on job training on aircraft" before clearing them for requisite licenses.
- Focused on the decentralizing authority of supervision to the junior most personnel according to experience for increasing accountability and ownership for the assigned job.
