WORK EXPERIENCE:

Wipro Technologies

(Mar 2022 - Present)

Client:- A1 Telekom

- Executed a successful **migration** of projects from **Nexus** Artifactory to **JFrog Artifactory**.
- Implemented a **scheduler** for **push notifications**, optimizing real-time user engagement.
- Ensured the application's security by implementing **JWT** authentication.
- Ensured high **code quality** by writing unit test cases with **coverage** above **90%**.
- Involved in various phases of Software Development Life Cycle (SDLC) using **Agile** Methodology and followed Scrum sessions.

PERSONAL PROJECTS

- **Travel & Tourism (06/2023 - 08/2023)**
 - Developed a user-friendly Travel Management System with secure authentication and role-based access, showcasing full-stack development expertise.
 - **Tech Stack:** Spring Boot, ReactJS, MySQL
 - **Link:** <https://github.com/panchalleena1286/TourAndTravelManagement>
- **Hospital Management System(04/2023-05/2023)**
 - Developed a comprehensive Hospital Management System to streamline and improve healthcare operations. I successfully streamlined staff operations, billing processes, and enhanced security through JWT authentication.
 - **Tech Stack:** Java, Spring Boot, Hibernate, MySQL
 - **Link:** <https://github.com/panchalleena1286/Hospital-Management-System>.
