On going

It is a user friendly application which reduces the burden and helps to manage all sections of hospital like... Doctors, Patients, Nurse, Pharmacist, laboratorist, Accountant, Receptionist Which improves the overall processing efficiency. It is necessary for the hospitals to keep track of day-to-day activities. But keeping track of all activities and their records on paper is very difficult and time consuming so that's the reason this project is developed.

- Understanding the SRS given by the customer.
- Identified scenarios and written test cases for the requirements.
- Executed test cases for Smoke, Integration and System Testing.
- Involve in Brainstorm meeting.
- Reviewed Test cases and updated the review comments.
- Actively involved in logging defects using Defect tracking tool.
- Involved in giving KT sessions for juniors.
- Participated in Sprint Planning, Retrospective meetings.
- Participated in Bug Triage meeting

## EDUCATION

- Completed B.Tech in Information Technology from Vivekanandha college of Technology for women.
- Completed certified course in Manual Testing, Automation Testing and hands-on project

## PERSONAL INFORMATION
