Worked Projects

1. Project Name : Venue

Environment : PHP, MySQL, JavaScript, jQuery, HTML, CSS.

Team size : 4 Members

Role : Backend Software Developer

Devices : Cisco, Exterity, Bright sign, Samsung Smart TV

Website : <http://www.enabledware.com/>

Description:

The Enabled Ware Digital Media Content-Display System, or DMC-DS, offers unparalleled power and flexibility in managing the delivery of digital-media content to a wide variety of display devices, including plasma/LCD displays, handheld/mobile devices, and interactive kiosks. DMC-DS solutions are especially well suited to applications such as: Stadiums and arenas, Convention centers and corporate events, Hotels and resorts, On-site, retail marketing, Hospitals and medical center's, Museums and cultural centers.

Despite its unmatched power and versatility, all versions and applications of the Enabled Ware DMC-DS share the critical benefit of being amazingly intuitive and easy to use, thanks to a web-based control-panel interface that delivers point-and-click simplicity. It practically eliminates training time and ramp-up costs so your customers begin seeing a return on their investment almost immediately.
