PROJECTS

Tax Litigation: Nexsus Techno Solutions.

- **Technology:** C#, ASP.NET, ADO.NET, JavaScript, jQuery, HTML, CSS, Bootstrap, SQL Server 2017

Description:

- This project is designed for the tax calculation purpose .It contains the master section which includes company master, Tax rate master and Disallowance master.
- Transaction section includes upload company returns, update business head , tax computation and summary assessment.
- Reports section is there from where we can get all stages report .stages are like computation, current, Previous stage.
- Depending on stage selection the related income and tax values get displayed .

Service Vision : Globeminds Technology

Technology: C#, MVC 5, Web API 2, Entity Framework, JavaScript, jQuery, HTML, CSS, Bootstrap, SQL Server 2017

Description:

- This application is designed and developed to report internet related issues. Costumers and Support can maintain all data at single place and it's beneficial to maintain all history.
- This application has multiple users like Costumer, Support Engineer and Field Engineer. Every user has their own roles and responsibilities.
- This application has medium complexity. Because multiple user roles and their registration process makes this application more complex.
- Application flow starts when costumers creates and lock complaint to company through portal using which Support logs in and process costumer's complaint. Which are then analyzed and assigned to respective field engineer by support engineer.
- Broadcasted to respective costumer on their dashboard and also in email box and inbox. After link issue resolved, that ticket will get closed at both end.

ROLES RESPONSIBILITIES

- ❖ Developing code to do different functionalities using ASP.Net MVC and Web API.
- ❖ Involved in database table designing, improving database efficiency by writing stored procedure, Function in SQL.
- ❖ Used **JIRA** as a project management and issue tracking tool.
- ❖ Creating and maintaining feature branches on **Git**.
- ❖ I participated in daily stand-up meeting, sprint meeting, planning and retrospective meeting.
