EXPERIENCE

SDE II Khatabook | Bangalore — Backend Developer

03/2021 - PRESENT

- Built supplier-party application in Node.js using Nest.js framework
- Successfully delivered customer required features, doubling the customer base
- Implemented key database constraints to ensure data accuracy and consistency
- Part of core team that developed B2B software for khatabook which uses tally as a source data
- Collaborated with product managers and stakeholders to understand requirements and deliver solutions within tight timelines.

SDE I Silicon Veins Private Limited, Mumbai

07/18 - 02/2021 (Acquired by Khatabook)

Android Developer

- Built a mobile application using Java and Kotlin
- Implemented a range of features resulting in a customer growth from 17k to 100k
- Created a proprietary mobile app library for displaying banners on the dashboard, taking full end-to-end ownership
- Led a team of 3 developers and conducted code reviews to maintain the code quality of the product

Backend Developer

- Built RESTful APIs in Node.js for the use of client communication
- Implemented several server-side features to accelerate product growth
