EXPERIENCE

- I Have 4 years of experience in **software development**.
- Working in **Code2dev Technologies Private Limited** (Noida) as **Associate Web Developer (Golang)** from **Mar-2023 to Present**
- Worked in **Intouch Quality Services Private Limited** (New Delhi) as **PHP developer** from **Aug-2019 to Mar-2023**
- Certification in **Android Development** from **Ducat**, Noida From **Feb-2018 to Jun-2018**

WORK HISTORY

Code2dev Technologies Private Limited, Noida— Associate Web Developer (Golang) (10 March 2023 - Present)

- Lead the development of web applications using Golang and Gin framework.
- Designing and implementing RESTful APIs to facilitate seamless communication between front-end and back-end systems.
- Implementing data models and database schemas, optimizing queries to ensure efficient data retrieval and storage.

Intouch Quality Services Private Limited, New Delhi— PHP Developer (26 August 2019 - 04 March 2023)

- Lead the development of web applications using Core PHP, Codeigniter, and Laravel frameworks.
- Collaborated with cross-functional teams to gather requirements and define project scopes, ensuring alignment with client needs and business objectives.

PROJECT HISTORY

SKILLS

Programming Languages:
Golang, PHP, JavaScript

Frameworks: **Gin, Laravel, Codeigniter**

Database Management: **MySQL, PostgreSQL, SQLite**

Version Control: **Git**

Development & Deployment

Tools: **Docker, Postman, DBeaver, Composer, Putty**

Operating Systems: **Windows, Linux & macOS**

Familiar with Agile development methodologies

LANGUAGES

English, Hindi, Urdu

Ecommerce Application(May 2023 - Present)

Customer Domain: Ecommerce

Technologies: **Golang Gin, SQLite, Bootstrap**

Responsibilities:

- Utilized Gin framework for backend architecture, implementing RESTful APIs for seamless frontend-backend communication, resulting in improved performance, scalability, and maintainability.
- Established an optimized SQLite database schema to manage and store crucial data like products, user profiles, orders, and transactions; ensured query efficiency and database integrity.
- Took an active role in deployment, setting up pipelines, Docker containerization, and monitoring/logging for efficient issue resolution.

LoadingInfo (October 2022 - March 2023)

Customer Domain: Logistics

Technologies: **Laravel, MySQL, Bootstrap, JavaScript, Composer**

Responsibilities:

- Led Laravel-based backend development, aligning technology stack and ensuring adherence to Laravel's best practices for maintainable code.
- Designed robust database schema supporting product, warehouse, and transaction data; integrated migrations and seeds for setup.
- Created comprehensive features encompassing product catalog, warehouse management, loading processes, shipment tracking, and secure user authentication with role-based access controls.

Bureau Veritas (August 2022 - October 2022)

Customer Domain: Inspection & Testing

Technologies: **Codeigniter, PostgreSQL, Bootstrap, JavaScript, Composer, Postman, DBeaver**

Responsibilities:

- Collaborated on a comprehensive database schema, designing data models for inspections, tests, and related entities.
- Guided PHP backend development, emphasizing performance, security, and scalability through selected technologies.
- Enforced clean, efficient code with role-based access controls; integrated RESTful APIs for Android communication and optimized database schema for inspection records and test data.

QuessCare (August 2021 - August 2022)

Customer Domain: Finance

Technologies: **Laravel, PostgreSQL, Bootstrap, JavaScript, Composer, Postman, DBeaver**

Responsibilities:

- Developed RESTful APIs for Android app's product, user, and order interactions.
- Designed database schema for products, users, orders, and related data; executed migrations and seeding.
- Created catalog module, managed inventory, designed shopping cart, integrated secure payment, handled authentication, and ensured web app security; actively enhanced project processes.

Also worked on

- **Dry Cleaning Services CRM in Codeigniter & MySQL**
 - Developed a comprehensive CRM solution for dry cleaning services using CodeIgniter and MySQL, streamlining operations and enhancing customer management.
- **Dedanadan (Android game) Laravel & MySQL**
 - Developed backend for Dedanadan (An Android game) using Laravel and MySQL.
- **Backscatter X-ray Training Application: Migration to Laravel & MySQL**
 - Successfully migrated a Backscatter X-ray training application from .NET to Laravel and MySQL, optimizing performance and accessibility.
- **Integrated Email and Contact Solutions across Diverse Projects**
 - Streamlined email integration and contact form submissions across an array of over 10 diverse projects, spanning personal portfolios, event registrations, e-commerce platforms, travel and real estate agencies, healthcare providers, educational institutions, restaurant bookings, and fitness centers.

EDUCATION

MCA from Graphic Era University, Dehradun, Uttarakhand, graduated with 70% aggregate (July 2016 - July 2018)

BCA from Glocal University, Saharanpur, Uttar Pradesh, graduated with 75% aggregate (July 2013 - July 2016)

XIIth from Gyankalash International School - CBSE Board, Saharanpur, Uttar Pradesh, passed with 55.2% aggregate (2013)

Xth from Jamia Senior Secondary School (JMI), Jamia Nagar, New Delhi, passed with 53.42% aggregate (2010)
