OBJECTIVE

"Data Engineer adept at designing efficient data pipelines and optimizing architectures. Proficient in ETL processes and data warehousing, dedicated to ensuring accuracy and scalability. Seeking to leverage technical expertise to enhance data-driven decision-making at HCL"

EXPERIENCE

HCL, Chennai— Software engineering

Jan 2021 - PRESENT

EDUCATION

LITAM (JNTUK), AP — B. Tech

MAY 2017 - May 2021

- ❖ Electronics and Communication Engineering
- ❖ Cgpa: 7.65

Scholars' junior college, Piduguralla — Intermediate

may 2015 - April 2017

- ❖ Math, Physics and Chemistry
- ❖ Aggregate :87%

Scholars English Medium High School, Piduguralla— SSC

Aggregate : 88%

Project [weatherapp Project.link](#)

"Developed a WeatherApp project to showcase my programming skills and understanding of API integration:

- Designed and implemented a user-friendly interface to input locations.
- Integrated a weather data API to fetch real-time weather information.
- Displayed weather details such as temperature, humidity, and conditions.
- Incorporated error handling to ensure smooth user experience.
- Leveraged [mention programming languages and frameworks used] for seamless functionality.

This project demonstrates my ability to create practical applications by integrating external data sources."
