ABOUT ME

I'm eager to join a company where I can apply my skills to make a real impact on the bottom line. In my previous role as an Analyst, I worked extensively with the "Contra Evaluation" database, which compiles vast amounts of data on frequently searched keywords across the World Wide Web. This resource enables users to access interconnected information about people, facts, and places seamlessly. My expertise spans CORE JAVA, HTML, CSS, SQL, and JDBC, enhancing my qualifications for software development roles. I am actively pursuing opportunities in software development to contribute my skills and passion for delivering innovative solutions.
