## Objective

I make a sound impact in corporate world and work enthusiastically in team to achieve goal of the organization with Devotion and hard work.

## Education Qualifications

Examination	Board	Name of the Institution	Year of Passing	CGP/Percentage
BE (Computer Science AND ENGINEERING)	VTU	BLDEA's Dr.Pg.Halakatti College of Engineer and Technology, Vijayapur	2020	6.75
12TH	PUC PUE	SSMS College Athani	2016	80.14
10TH	SSLC KSEEB	AVVEMS Athani	2014	85.44

## Technical Skills

- C#
- ASP.NET
- MVC
- MVVM
- HTML
- CSS
- MongoDB
- Basic SQL

## Internship

Digital Geetham

Machine Learning Using Python

Bangalore

July 19-Aug 19

- This internship was of 4 weeks based on Python.
- The topic of internship was introduction to Python with Machine Learning
- The project was based on the topics of Machine Learning Algorithms like Linear regression, Decision Tree, Logistic regression, Support Vector Machines (SVM), Naïve Bayes.
- Machine Learning is a type of artificial intelligence (AI) that provides computers with the ability to learn without being explicitly programmed.
- There are several libraries and frameworks in Python that can be used for Machine Learning, including:
  - 1) Scikit-learn
  - 2) Tensor Flow
  - 3) Keras
  - 4) PyTorch
  - 5) Theano
  - 6) Pandas

## Experience Summery

Ready Networks Pvt. Imt Bangalore

Associate Software Engineer

Oct 2021 to May 2023

## Work Experience

Company: Ready Networks Pvt. Imt

Role: Associate Software Engineer

Bangalore

Oct 2021 to May 2023

Key Deliverables

- Basic .NET Full-Stack Developer with proven expertise in all phases of SDLC.
- Expert in Microsoft Technologies like C#, ASP.NET 5.0.

- Excellence experience in OOPs concepts and Design patterns like **Singleton Factory, etc & UML**.
- Experience in **MVC** and **MVVM** design pattern.
- Experience in solving issues while bugs are raised.
- Self-motivated team player with a passion for solving analytical problems and thirst for new technologies.
- Participated in UI design with Master Pages in **MVC 5** and improved layout with **HTML, CSS**.
- Developed Razor Views with strongly typed view models, helpers and partial views using **ASP.NET MVC 4** to display required news and data on Dow-Sync's display section.
- Worked on UI layer using **HTML, CSS and Bootstrap** to build rich, flexible and user interactive web pages
- Strongly involved in testing of project and done testing.
- Involved in requirements gathering, analysis, design and code review and development stages.
- Used **MongoDB** to store details of modules used in project.

#### About the Project: SIX ONE

Our all-inclusive platform seamlessly integrates six state-of-the art technologies to deliver unparalleled results. From robust infrastructure and advanced security to comprehensive data analytics, AI, and ML capabilities, Six. One empowers our business to thrive in today's competitive landscape.

1) **DaaS:** Six. One Desktop-as-a-Service (DaaS) is a platform that enables users to access virtual desktops and applications from any device, anywhere in the world, in secure manner.

**Workspace:** Workspace simplifies desktop delivery strategy by eliminating the complexity in managing hardware inventory, OS versions, and patches.

- **Personal Workspace:** It is a type of workspace that can only be accessed by a single user.
- **Shared Workspace:** It is a type of workspace that can be used by multiple users.
- **Pooled Workspace:** It is a type of workspace where multiple instances can be created.
- **Hybrid Workspace:** This type of workspace can be created by the customer, who can then assign it to the user.

#### Other Features of DaaS

- **Screen Share:** It is process that allows users to share their Six. One session screen with others in real-time.
- **Session Recording:** Is a tool provided by Six. One that allows organizations to record session.
- **Images:** In Six. One an "image" refers to a template that is used for creating new instance, such as virtual machines.
- **Access Control:** Is a security measure that ensures only authorized individuals have access to specific resources.

2) **Secure Sign:** Sign documents digitally with ease and security, from anywhere, at any time with e-signing.

- Sign documents anywhere
- Track signatures
- Identify Verification on the sign or reject.

#### Other Features of Secure Sign

- Signature request mail-in sequential order
- Password-protected pdf
- Photo Verification on the sign or reject.
- Send auto-reminders for signers.

3) **Marketplace:** Introducing a groundbreaking Six. One Marketplace platforms the way Microsoft CSPs conduct their business.

#### Features of Six. One

- **Multi-Model Platform:** Empower customers with self-service capabilities, reducing manual silos and enhancing their overall experience.
- **Customer Empowerment Hub:** Provide en customers with seamless access to purchase, provision, and manage their cloud resources.
- **Pricing, Discounts and Offers:** Create custom plans, discounts and offers that combine usage-based services and licenses.
- **Comprehensive Reporting:** Gain Valuable insights with extensive reporting on Azure usage and licenses purchased.

## Personal Traits

---

- Strong analytical, problem solving & organizational abilities.
- Excellent interpersonal skills
- Possess a flexible & detail-oriented attitude.
- An effective communicator with excellent team building character.

## Personal Details

---

- **Date of Birth:** 11<sup>th</sup> Jan 1998.
- **Permanent Address:** Athani, TQ:Athani, District:Belgum
- **Languages:** English, Kannada, Telugu, Hindi.
