DIVYA PALEM

DATA ANALYST INTERN

PROFILE

I'm constantly looking for new possibilities to use my abilities and contribute to the development of an organization that is data-driven as a committed and motivated intern data analyst. I learned a lot about data analysis, visualization, and dashboard construction throughout my internship.

INTERNSHIP

- Feb 2023- Present
Ai Variant, Hyderabad
Data Analyst Intern

- Expertise in interactive visualization, **modeling, data cleaning, and analysis.**
- Practical experience with **real-world datasets**, **extracting relevant insights**, and presenting findings to stakeholders.
- The capacity to **convert complex data into information** that may be used in data-driven decision-making processes.
- Data cleaning and modeling skills to guarantee the dataset's quality and dependability.
- Skilled in **creating dynamic, user-friendly dashboards** that give stakeholders real-time insights and enable them to explore and analyze data at multiple levels using tools like Excel, Tableau, and Power BI.
- Expertise in writing SQL Queries

PROJECTS

1. Insurance Analytics

- In my Insurance Analytics project, I utilized **Excel, Power BI, and SQL** to analyze and gain valuable insights from the insurance company's vast data. Using **SQL**, I **efficiently extracted, transformed, and loaded** the data into a structured database, ensuring data accuracy and consistency.
- Leveraging Excel, I conducted **in-depth exploratory data analysis**, identified patterns, and performed risk assessments to understand the company's claims frequency and severity.
- Finally, I created **interactive and visually appealing dashboards using Power BI** to present the findings to stakeholders, enabling data-driven decision-making and improved risk management strategies for the insurance company.

SKILLS

- Ability to Multi Task
- Ability to work in team
- Fast Learner
- Adaptability
- Problem Solving

CERTIFICATIONS

- Course Completion Certificate by ExcelR
- Data Visualization Certificate by IBM
- SQL Relational Databases Certificate by IBM
- SQL Basics Certificate by HackerRank
- SQL Intermediate Certificate by HackerRank
- SQL Advance Certification by HackerRank
- Power Bi certification by TestDome

2. Food & Beverages Analytics

- Successfully done project utilizing **Excel, Tableau, and SQL to drive business insights and revenue growth.**
- Developed data models and performed complex data analysis to identify sales trends and opportunities.
- Leveraged Excel to create dynamic sales dashboards and reports, providing actionable insights to stakeholders. Proficient in **SQL for data extraction, transformation, and loading processes.**
- Demonstrated ability to synthesize large datasets and present clear visualizations using Tableau, enhancing decision-making for key stakeholders.
- Proven track record of optimizing sales strategies and forecasting accuracy through data-driven recommendations.
