

SNEHAL CHANDU DANT

Cell: +91-908-272-9928

Email: dant.snehal@gmail.com

Objective

A skilled, talented and hands-on experience on **Visual Basic for Applications(VBA)** and looking for a challenging **VBA Developer** position to utilize my knowledge of designing, developing, implementing complex process and reducing time.

Summary

- More than **1.7** years of experience in design, development and implementation of MS Excel MS Access/VBA based Applications.
- Proven background translating cell formulas in Excel into VBA code.
- Created Macros for Business Development.
- Automating, modifying, and optimizing reports in Excel Access.
- Experience in the development of financial applications using Excel and Access.
- Experience in redesigning, maintaining and supporting existing applications and tools especially in Microsoft Excel Access 2007 / 2010 / 2013.
- Experience in Advanced Excel and its features like Pivot Tables, Charts, etc.
- Experience in migration of databases to MS Access utilizing tables, queries, forms, reports, macros, and modules.
- Experience in SQL statements, stored procedures using SQL server 2012.
- Experience in extracting, transforming and exporting data between different RDBMS and from flat file to Excel and vise-versa.
- Used MS Excel/Access VBA SQL to send system generated e-mails, manage and report embedded Excel documents.
- Created Dashboard in MS Excel.
- Good experience in the implementation of all phases of Software Development Life Cycle SDLC from requirements gathering through implementation.
- Prepared program level and user level documentation.
- Excellent team co-ordination, organizational and interpersonal skills with result oriented approach.

Education

Qualification	Board/University	Percentages	Year of Passing
B.E. (IT)	Savitribai Phule Pune University	60.53%	2015
HSC (12 th)	MSBSHSE, Pune	63.53%	2010
SSC (10 th)	MSBSHSE, Pune	83.53%	2008

Summary of Skills

RPA Tool	UiPath Studio, Orchestrator, Win automation, Process Robot
Automation Skills	Web, PDF, Email, Image/OCR automation
OCR Tool	ABBY Flexi Capture, Microsoft OCR, Tesseract OCR
Office Tool	Advance Excel, Access, Outlook
Operating System	Windows 7, 8, 10
Programming Languages	Python, VBA, C, C++
Web Technologies	HTML, CSS, JavaScript
Database	Access Database, MySQL

Certification

- Certified Automation Anywhere Advanced RPA Professional.
- RPA Developer Advanced Certificate of Completion from UiPath Academy.
- Diploma of Completion UiPath Advance Training from UiPath Academy.
- Diploma of Completion Level 2-Orchestrator Training 2018.3 from UiPath Academy.
- Diploma of Completion Level 1-Foundation Training 2018.3 from UiPath Academy.

Professional Experience

Working as a RPA Developer with Greysoft Solutions. Since March 2019 to till, date

Project Work

Projects at Client Location:

➤ Citi Bank(BKC):

Project Name: Various Files Converter (Text ,Excel)

Duration: Sep 2020 to Present

Role: Developer, Debugger and Tester.

Technologies: VBA (Macro).

Description: This project focuses on automating the manual process of converting statement data in various file format into excel. Creating reports using raw data.

➤ Avendus Wealth Management Private Limited:

Project Name: Pool Recon Process and Non Pool Recon Process (Transaction Level)

Duration: May 2020 to August 2020

Role: Developer, Tester, Debugger and Support.

Team Size: 1.

Technologies: Uipath, VBA (Macro).

Description: This project focuses on automating the manual process of Axis Bank and Hdfc Bank Account Statement recon process for previous day. The BoT downloads the 'Account Statement' for Axis bank and hdfc in excel file from the email and dump/master files using Avendus different web application (Miles, Integra, Wealth spectrum).Using vba macro copy the data from Account statement and pastes it into Master file. To align transaction entries with dump data, apply a different formula and knock off entries.

➤ Fed Bank Financial Service Ltd:

Project Name: Right shifting Process

Duration: January 2020 to March 2020

Role: Developer, Tester, Debugger and Support

Team Size: 1.

Technologies: Uipath (Web Automation).

Description: This project focuses on automating the manual process of assigning rights of one employee to other. In this process, the rights of one particular employee are assigned to another employee from the same or different branch. The BoT downloads all requested mails and extract data (table) from mail body save that data in excel file. Then BoT will open browser and open respected web application and do required

➤ **Fed Bank Financial Service Ltd:**

Project Name: Bank Statement-RECON process

Duration: October 2019 to January 2020

Role: Developer, Tester, Debugger and Support

Team Size: 1.

Technologies: Win Automation, VBA Macro.

Description: This project focuses on automating the manual process of Fed Bank and ICICI Bank Account Statement-RECON process for previous day. The BoT downloads the 'Account Statement' for Federal bank in excel file from the email and copy the data from Account statement and pastes it into Master file. The closing statement from the Account statement is copied and pasted in the Master file.

Responsibilities:

- Involved in Creation, Development, Testing, Debugging, deploying and maintenance of the process using RPA, VBA technology.
- Attend project related meetings, involved in the designing Process work flows & Reviewing the Process Automation.
- Fixing bugs raised by QA team.
- Test the automation and reduce the time span.
- Focus more on short and understandable coding.
- Deployed Bot on client machine with fixing bugs.
- Done with proper exception handling.

➤ **Larsen & Toubro InfoTech Ltd**

Project Name: Vahan Process

Duration: September 2019

Role: Tester, Debugger and Support

Team Size: 1.

Technologies: Win Automation (Web Automation).

Description: This project focuses on automating the manual process Collecting source file. Log in into the web based application Vahan.Populate fields in the portal with certain validations. Extract the required information. And save the extracted information in excel file.

Responsibilities:

- Involved in Debugging, and providing support to the process using RPA Process Robot Automation technology.
- Overcome all the bugs arise during Bot execution.
- Extensively worked on debugging application for fixing bugs and Production support.

➤ **STAR India Private Limited:**

Project Name: Automation of Mailing Invoices to the respective agencies

Duration: March 2019 to September 2019

Role: Debugger and Support.

Technologies: RPA (Process Robot)

Description: This project focuses on automating the manual process of segregating invoice reports as per relevant agencies and advertisers in respective folder. Zipping relevant agencies and advertiser's folder and sending mail to relevant agencies and advertisers with zip file as attachment.

Responsibilities:

- Involved in Debugging, and providing support to the process using RPA Process Robot Automation technology.
- Overcome all the bugs arise during Bot execution.
- Extensively worked on debugging application for fixing bugs and Production support.

➤ **Deustch Bank:**

Role: Developer, Tester, Debugger and Support.

Team Size: 1.

Technologies: Excel VBA and Access VBA

Description: I had designed around 50+ VBA macros for multinational bank. I had automated many banking and financial related manual processes by using VBA excel and access macros. I had used all the commands best of my knowledge to automate that process. Also deployed them on client machine with proper exception handling and fixing the bugs. This reduces the time span, improved accuracy, less prone to error, and banking process become fast, accurate and secure.

Personal Details

Full Name: Snehal Chandu Dant.
Permanent Address: At-Kuhire, Po-Pigonde, Tal-Pen, Dist-
Raigad, 402106.
Date of Birth: 26 Aug 1992.
Language Known: English, Marathi & Hindi.
Marital Status: Single.
Nationality/Religion: Indian/Hindu.
Interest & Hobbies : Cooking, Dancing.
