WORK EXPERIENCE

Associate Software Engineer

IRON SYSTEMS

02/2022 - 04/2023

PROJECT - SERVICEO

- Engineered innovative real estate valuation, analytics, and platform technology solutions within a collaborative team environment.
- Developed and maintained web applications using Angular, HTML, and CSS ensuring seamless user experience.
- Collaborated with cross-functional teams to design, develop, and implement cutting edge features, resolving technical issues promptly and delivering exceptional end-user support.
- Addressed bugs in the exiting projects, implemented enhancements and introduced improvements to optimize the product performance.
- Utilized HTML, CSS, JavaScript, and Angular skills to maintain and enhance the product and further enhanced my knowledge in those areas through practical application.
- Exhibited strong communication skills and the ability to express ideas clearly and concisely and honed advanced programming skills through consistent practice of coding challenges, leading to a deep understanding of algorithms and problem-solving techniques.
- Amplified programming skills by consistently practicing coding challenges, leading to an advanced understanding of algorithms and problem-solving techniques
- Acquired basic experience with integration in Mulesoft Anypoint Studio.
- Learned different skills like Angular and improved my ability to write code.
- Enthusiastically pursued real-world tasks to broaden knowledge and expertise, demonstrating a keen eagerness for learning and growth.

SKILLS

Web Development : HTML, CSS, Java Script

FrameWork : Angular.js

DataBaseManagement : MySQL, Python

Other Skills : Problem Solving, DSA, DBMS, Operating System, Eclipse, Microsoft Office, Basic Git and GitHub, oops, MySQL, Power BI

Interpersonal Skills : Confident, Team Leader, Creative, Highly Motivated

PERSONAL PROJECTS

E-commerce Website (10/2022 - 11/2022)

- Constructed a dynamic e-commerce website leveraging the Angular framework, highlighting expertise in front-end development and proficiency in modern web technologies.
- Implemented essential features such as product search, filtering, sorting, and pagination to elevate the user experience and optimize product discoverability.
- Demonstrated a deep understanding of user-centric design principles, enhancing the website's usability and ensuring a seamless browsing and purchasing process.
- Demonstrated proficiency in HTML, CSS, and JavaScript, leveraging Angular to create a responsive and interactive quiz app.

Quiz Application (10/2022 - 10/2022)

- Developed and deployed a comprehensive quiz application using the Angular framework, exemplifying advanced front-end development expertise.
- Designed and implemented an intuitive user interface (UI) for the quiz application, resulting in a seamless and enjoyable user experience.
- Integrated features such as scoring, timers, and progress indicators to enhance overall engagement and foster competitiveness within the quiz.
- Demonstrated proficient utilization of HTML, CSS, and JavaScript, leveraging Angular to craft a responsive and interactive quiz application.

Music Store Data Analysis using SQL (12/2021 - 07/2022)

- Analyzed music store data using SQL to address business challenges such as potential customers and most selling products etc.
- Utilized various SQL functionalities such as SELECT, JOIN, GROUP BY, ORDER BY and LIMIT to achieve the desired results.
- Investigated high-revenue cities, and pinpointed top spending customers.

CERTIFICATES

HackerRank basic and intermediate SQL certified.

SoloLearn - Introduction to JavaScript
