WORK EXPERIENCE

Software Developer(Java) Centre for Good Governance(2.2 years)

08/2021 - Present

Hyderabad

Achievements/Tasks

- Developed multiple projects using **Java Spring Boot RESTful Webservices** and **Spring MVC** for the Centre for Good Governance in Hyderabad.
- Utilized **Angular** to create engaging and intuitive user interfaces for project websites. Made meaningful contributions to the success of the organization and gained valuable experience in software development, project management, and collaboration.

PROJECTS

TSHEBOX(Web Application for Women Harassments)

- Spearheaded end-to-end web application development using **Java Spring Boot** and **Spring MVC** technologies for backend services and **JSP pages** for frontend design.
- Effectively handled database operations by crafting optimized **SQL** queries for **PostgreSQL**, ensuring seamless data storage and retrieval.

WDSC(Mobile App and Web Application for Old age Homes Evaluation)

- Developed and integrated interactive web pages using **Angular** with Spring backend services to deliver seamless user experiences.
- Successfully integrated **RESTful APIs**, leveraging **Spring Security** for secure authentication and authorization within the application.
- Proficiently designed and developed diverse types of **reports** and **document generation** features for multiple projects, leveraging cutting-edge tools and technologies.

TSOBMMS(Web Application)

- Completed a **Struts to Spring migration**, revitalizing a legacy application with enhanced flexibility and scalability, contributing to improved system performance and long-term sustainability.
