Experience

Curefoods India Pvt Ltd

Supplay Planning & Demand Planner
Nov 2022 – Present

- Automated the supporting files, Reduced Production plan preparation time by 50%.
- Reduced the planning errors to 0 due to manual interventions.
- Reduced DC wastages per month from 4lacks to 50k in 3 Months by tweaking some changes in the Production plan.
- Created Excel module for production plan generation in just 2 clicks. Which is a completely skipped python/Jupiter scripts dependency. Builided multiple cross-check modules for cross-checking the works to avoid manual errors.
- Providing key insights to the stakeholders upon analyzing data as per business requirements.
- Helping stakeholders in performance monitoring.
- Bringing advancements to the system by understanding and tweaking existing modules to increase accuracy and reduce redundancy in data analysis.
- Contributed to the reduction of inventory wastage by a significant value of 9%, reduced the demand reductions at kitchens by 15% to 1.6% in 4 months for my assigned zone.
- Helped to reduce the potential loss of inventory by 4%.
