## **PROJECT WORK TITTLE**

### **“WIRELESS CHARGING OF ELECTRIC VEHICLE USING RENEWABLE ENERGY”**

#### **Description:**

- The domain we used In this project is “INDUCTANCE”
- “Wireless inductive charging allows an electric vehicle [EV] to automatically charge without the need of cables,”
- For medium range applications inductive WPT systems have traditionally been preferred.
- People will get used to wireless charging just as quickly charging efficiency is up to 94%, comparable to wired connections.

#### **STRENGTHS:-**

- Comprehensive problem-solving abilities.
- Good verbal and written communication skills.
- Strong commitment and dedication towards work.
- Willingness to learn.
- Adaptable to changes of work environment.

#### **WORK EXPERIENCE: -**

- For 3 months training joined as ‘embedded trainee’ in IT company.  
(During this period, I learnt software testing and I had little knowledge on remote monitoring system(rms).
- I had experience with 6 months for the position of Quality Assurance Engineer in Metricstream InfosecPvt Ltd.  
(During this period, I have learnt product knowledge - Regulatory Change Management (RCM).

#### **ADDITIONAL ACTIVITIES:-**

- Internship based on “ANDROID APP DEVELOPMENT” during academic year.
- I completed SQL and manual testing course in Qspider.
- SQL: Knowledge of RDBMS, where clause, having clause, grouping and joins and how to solve problem
- Manual Testing: Software development life cycle (SDLC) different types of modules. White box testing and black box testing, Integration testing, system testing, performance testing and globalization testing.
- I completed courses in Qspider(software testing training institute ) Basavanagudi.
- Bugs and story validation, Test case execution, Instance creation.

Currently python course training is taking by Browsejobs pathfPathfinder program.
