Summary

- 8+ years experienced Senior Software Engineer skilled in **Angular and Microsoft .Net technologies**
- Experience in leading scrum team -**Certified Scrum Master**
- Experience in design, development and deployment of web - based Client applications using **Angular Js, Angular 6,7,9**
- Experience in requirement analysis, planning, estimation, risk analysis, high level design using Agile Project Management tool- **JIRA** and **Confluence** for documentation
- Skilled and efficient in building Web User Interface (UI) using **HTML5, CSS3, JavaScript, Typescript, jQuery, Bootstrap, Angular Material, Primeng, XML, JSON, RESTAPI's**
- Expertise in consuming web-services in the form of **JSON** via **Web Api** calls for creating business progress views as visual charts by using visualization tools like **D3.js, High Charts**
- Experience in developing high-profile single page application with **.NET Framework 4.x, ASP.NET Web Api**
- Designed and developed integrated n-tier web applications using **C#, ASP.NET 4** and **ADO.NET**.
- Experience in creating test suites using **Jasmine, Karma**
- Proficiency with version control tools such as **GIT, TFS**
- Significant experience in debugging and troubleshooting code using **Chrome DeveloperTools, Postman**
- Domain expertise in **Healthcare, Financial and Logistics**
- Experience in System Integration Testing, Regression and coordinating UAT
- Experience in collaborating with the business stakeholders
- Positive attitude and confident to take up new challenges and keen to learn new concepts

Skills

Front-End: HTML5, CSS3, JavaScript, jQuery, AngularJS, TypeScript, Angular6/7/9, Bootstrap, AJAX, XML, JSON, D3.js, High Charts, Angular Material

Backend: C#, .NET Framework 4.5/4.0/3.5\ ADO.NET, Entity Framework \MVC \ASP.NET 5.0/4.5/4.0 \ Web API

IDE's: Visual Studio 2015/2013/2010 , Visual Studio Code

Database: SQL Server 2014/2012/2008, Informix

Version Control: TFS, GIT

Test Suite: Jasmine, Karma

Others: Adobe PhotoshopCC/C6,Ansible,Yaml, Linux commands, Cron jobs, Resource manager jobs

Qualification

Bachelor of Engineering in Computer Science from CMS College of Engineering and Technology, affiliated to Anna University Chennai, 2015

Awards & Certifications

- **Walmart Bravo award- Nov 2022**
- **Walmart Bravo award- Feb 2022**
- **Certified Scrum Master CSM from Scrum Alliance**

Experience

Walmart Global Tech

Software Engineer 3

Bangalore

21 Sep 2020 –Present

- Experience in development and deployment of web - based client applications using Angular 9/6 and backend - C# .Net Webapi for Healthcare domain
- Performed root cause analysis on deltas, issues and provided recommendations to mitigate risk
- Experience in requirement gathering, analysis, planning, estimation, risk analysis, HLD ,LLD, backlog creation and prioritization
- Worked with front-end web technologies such as HTML5, Javascript, Typescript, CSS3, Bootstrap, Angular Material, Json, XML
- Expertise in Stakeholder management, mentoring the team, perform code reviews and hiring tech talents
- Experience in code versioning tool- GIT, Monitoring tool -Splunk, Automation tool -Ansible, DevOps tool- Docker
- Facilitates Agile ceremonies such as Sprint Planning, Daily Stand-up and Sprint Review and Retrospective

Infosys Limited

Senior Systems Engineer

Bangalore

1 Oct 2018 – 18 Sep 2020

- Worked with the technology team in agile and sprint planning cycles to develop, implement and test application in financial domain with Angular 7 development framework
- Worked with front-end web technologies such as HTML5, CSS3, Bootstrap, Angular Material, Json, XML
- Extensively used built-in and customized Angular directives, pipes for an application in logistics domain
- Experience in creating test suites using Jasmine,Karma
- Involved in complex UI issue fixes and browser compatibility issues in .Net MVC application
- Used Chrome Developer Tools, Postman to ensure front-end code and assets were optimized and high-quality
- Experience in version control tools such as GIT and TFS
- Working knowledge of performance techniques

Accenture

Application Development Associate

Bangalore

25 Sep 2017 – 25 Sep 2018

- Worked with the technology team to scope, design, develop, implement, test and launch applications
- Used Angular 6 as development framework to build data Visualization projects from scratch
- Extensively used Primeng UI component for user interface creation in Angular6
- Used AngularJS as development framework to build Single Page Application (SPA)
- Automated the visual designs representation of the business progress using D3.js, which in turn removed man efforts and time
- Used Web API as a service to provide the data from database server
- Design and programming experience with front-end web technologies such HTML5, CSS3, Bootstrap, Angular Material, jQuery, Json, JavaScript, D3.js, High Charts
- Used various built-in and customized Angular directives, pipes
- Extensively worked on Entity Framework

INKEL Limited

Software Engineer

Kochi

1 Sep 2015- 30 July 2017

- Developed ASP.NET4 web application for financial domain in three-tiered architecture
- Involved in database, frontend and backend development of the web application in the Visual Studio and SQL Server environments
- Involved in creation of session objects, master page, crystal reports.
- Worked on Grid view Sorting, Paging and Export
- Involved in creation of stored procedures, function and triggers in MS SQL Server2008
- Involved in Integration of Fed Net, Payment gateway, Data Encryption and Decryption
