Functional and Automation Testing | Test Lead

## || CAREER SUMMARY

- Overall **12+ years** of experience in **Testing (QA)**, in Manual and Automation testing of Web applications .
- The testing experience includes **2.8 Years** as a **Senior Quality Analyst (Functional, ETL – 2 Years, Automation – Selenium RC – 8 months)** in M/s SCIO Health Analytics Consulting Services Ltd, Chennai and **1.3 Yrs** as **Test Analyst** in M/s DNB Technologies, Chennai (Security Automation, Selenium Web Driver– 1.3 Yrs.) and **8+ Yrs** as **Senior Software Engineer** in J.P Morgan Chase Ltd, Bangalore (Manual Testing +Automation).
- Having experience in testing **Web applications, Windows Application Testing, ETL Testing – SSIS Package, Automation -Testing in Selenium RC and Selenium Web driver with Cucumber Frame work - JAVA and Security Automation in Parasoft – (Jtest, SOA Test, dotTest).**
- Testing experience in **Manual** includes **Functional, Regression, Sanity, Usability, Database Testing (SQL), Browser Compatibility, System, UAT, Stress testing, Volume Testing, Security testing and PUT Testing.**
- Testing experience in **Automation** includes **Developing Scripts in Java, Execution of Test Suite, and Working Knowledge on Cucumber with Selenium on behaviour Driven Development (BDD) Framework, UDF(User Defined Functions) Framework.** Has Good Knowledge in **Junit and TestNG Framework.** Intermediate in development of scripts in **Selenium Web driver, RC and using JAVA.**
- Hands on Experience in Continuous Integration and deployment tools like **JENKINS, Jules, GIA Canaries** and **GIT repositories**
- Involved in various phases of testing activities that include, Requirement Understanding, Impact Analysis, **Developing Test design document, Creating Test execution plan documents, Test data preparation, Test execution, Defect Management, Test Metrics.**
- Involved in **ETL (Extract Transform Load) Testing through SSIS Package** which transforms data to staging tables and then to source tables. Has Good experience on **SQL Simple and Complex Queries and Basic Store Procedures** and Working Experience in Unix Shell script commands.
- Trained and Posses Good Knowledge in API Testing Tools like **POSTMAN.**
- Experience in interacting with business analysts, developers, IDP (Int Data Platform), technical support and help them in base line the requirement specifications. Core domain skills include **Healthcare, Telecom and Investment Banking and Financial Services.**
- Had delivered effective and efficient solutions that helped the organizations improve its productivity and meet the requirements of the clients. **Excellent communication and interpersonal skills** with strong work ethics. Team player, highly productive, Commitment and Result driven in team and Individual Projects.

## || TECHNICAL SKILLS

Automation Testing Tools	Cucumber with Selenium Web Driver, BDD Framework, UDF Framework Selenium with Test NG, Junit,
	RC - JAVA, QTP (Basic), Parasoft – Jtest, SOA Test, DotTest
Manual Testing Tools	ALM, JIRA, Mercury Quality Center 11.0 (QC), X-Studio (Open Source)
API Testing	POSTMAN
Language	JAVA
ETL Testing Tools	SSIS Package
Backend Tools	SQL Server, Oracle, Unix Shell Script Commands
Continuous Integration Tools	JENKINS, JULES, GIA Canaries, Maven, ANT, GIT repository
Reporting Tools	BIRST
Web Development Tools & Services	HTML

## || CURRENT ORGANISATIONAL EXPERIENCE

From 2015 to till date working as an Senior Software Engineering( | | | ) in J.P. Morgan Services India Private Limited.

Line of Buiness : CIB (Corporate Invesment Banking), CCB (Conumer and Commercial Banking - Digital)
