X	ZP High School Piler(Main), Piler	Board of secondary	2014	7.7

### TECHNICAL SKILLS :

- Programming Languages : C.

### PROJECT :

- Title : IOT Based on smart villages
- S/W Used : Mobile application, data connectivity.
- H/W Used : Water-level sensor, Temperature sensor, Humidity Sensor, MCU Board.
- Description :

Library Management System aims at how a days most of the farmers still lack a good understanding and capacity to use market intelligence in guiding their production and marketing decisions. Having a better awareness allows us to avoid poor decisions and optimize our goods. There are many programs and methods where farmer works will because easy but because of lack of awareness they are striving hard. By creating awareness like the temperature and humidity levels of soil, they come to know and when to grow. This project discusses how IOT can be used achieve optimal irrigation by continuously monitoring the level by using mobile or pc.

### PERSONAL DETAILS:
