CAREER OBJECTIVE:

Dynamic professional with a strong background in non-IT roles for 6 years, now dedicatedly contributing to the IT industry. Equipped with 1 year of experience as a Frontend Developer at E-Systems AI Tech solutions, leveraging a robust skill set to drive innovative software development projects.

Technical Skills:

- ❖ Programming Languages: HTML, CSS, JavaScript, Python, Java
- ❖ Framework: Django
- ❖ Databases: MySQL

LIST OF PROJECTS WORKED BY USING PYTHON AND MYSQL:

- ✓ Library Management System (Python and MySQL)
- ✓ Notepad Design (Python)
- ✓ ATM Application (Python)
- ✓ Registration Table (Python)

WORK EXPERIENCE:

2022 September to Present

- ✓ 2022 September to Present: Working in E-Systems AI Tech solutions as Frontend Developer
- ✓ Designed and developed the entire frontend of an Employee Management application by utilizing Bootstrap, JavaScript, HTML, and CSS to create a user-friendly and responsive web interface
- ✓ Ensured a seamless user experience by implementing interactive features and functionalities and also collaborated with the development team to integrate frontend components with backend systems
- ✓ Played a pivotal role in improving the application's usability and accessibility by contributing the overall user interface design, providing a modern and aesthetically pleasing look
- ✓ Continuously maintained and updated the frontend to meet evolving user requirements and technology standards

- ✓ Demonstrated strong problem-solving skills and attention to detail in resolving frontend issues
- ✓ Worked closely with colleagues from back-end team to ensure a cohesive and efficient development process

2016 January to August 2022:

Inventurus Knowledge Solutions

Conducted Comprehensive Analysis of Unpaid/Rejected Insurance Claims:

In my role, I was responsible for conducting a thorough examination of the underlying causes behind unpaid or rejected insurance claims. This multifaceted task involved a systematic approach to identify the precise reasons why certain claims were not honoured by insurance providers.

I meticulously reviewed and scrutinized claim documentation, policy details, and communication records with insurers. Through this process, I unearthed critical insights into various factors that contributed to claim denials, such as incomplete or incorrect information, missing documentation, or policy-specific limitations.

Gathering Payment Information from Insurance Websites:

- ✓ **Data Collection:** Responsible for collecting essential data regarding payment amounts associated with insurance claims.
- ✓ **Utilizing Online Resources:** Leveraged insurance company websites as valuable sources of information for collecting payment data.
- ✓ **Navigational Expertise:** Navigated these online platforms adeptly to extract pertinent information about payment statuses.
- ✓ **Comprehensive Payment Assessment:** Determined both the amounts already paid and those pending settlement for accurate payment reconciliation.
- ✓ **Informed Decision-Making:** The collected data was utilized to facilitate informed decision-making within the organization, ensuring efficient financial management.
- ✓ **Attention to Detail:** Required meticulous attention to detail in all aspects of the role to resolve discrepancies efficiently.
- ✓ **Deep Understanding:** Demonstrated a deep understanding of insurance policies and processes to accurately assess claims.
- ✓ **Optimization:** Contribution to the optimization of claim management procedures, improving overall efficiency.
- ✓ **Enhanced Financial Operations:** Ultimately, the role contributed to enhancing the financial operations of the organization through proactive and efficient claims management.

These points highlight the key responsibilities and skills associated with each task, showcasing your expertise in handling unpaid/rejected insurance claims and payment data collection.

2013 June to 2014 June:

Junior Process Associate, Dharma Solutions

- ✓ Handled AR Caller processes, liaised with insurance companies, and facilitated communication with US physicians

EDUCATIONAL QUALIFICATIONS:

- ✓ Bachelor of Technology (EEE) from Aware Madhavanji College of Engineering, JNTU in 2008 – 2012 with 78.60%.
- ✓ Intermediate (M.P.C.) from Ideal Junior College, Hyderabad in 2006 – 2008 with 88.5%.
- ✓ SSC from Sai Srinivasa Brilliant Grammar High School, Hyderabad in 2005 – 2006 with 84.3%
