SUMMARY

Junior Software developer with two year experience in all the phases of ETL such as Extraction,cleansing,transformation using Qlik replicate and created dashboard using different visualization

SKILLS

- Qlik Replicate(may 2023)
- Qlik sense destop (2022)
- Qlik compose (may 2022)
- Database(MSSQL, Oracle (19c) ,MYSQL, Postgresql, Mongodb)
- Snowflake
- Python(3.9)

PROJECT

Sept 2021 - Present

- **Software developer**

Sightspectrum solutions private limited

Project Name: Qlik Replicate

Role: ETL Developer

Tool:Qlik Replicate

Database: Oracle19c, Microsoft SQL Server, MySQL Workbench, PostgreSQL, Monogdb.

Cloud:Kafka, Snowflake on AWS

Technologies: python

Description:

My recent mini-Project as Python API in Qlik Replicate and Done Activities in admin activities in replicate , Analyzed and Solved the errors in Qlik Replicate

Responsibilities:

- Installing and configuring Qlik replicate, creating endpoint, analyzing performance issues. Supporting internal Qlik CoE team.
- Installing configuring replicate servers in Windows and Linux.
- Created task to replicate the data from different sources like SQL Server, Oracle, MySQL, file, PostgreSQL, Mongodb atlas, MSSQL (CDC)
- Creating the tasks, managing the End point connections, and configurations.
- Worked on Logstrem Component in Qlik Replicate.
- Worked on filter, Transformation To filter the Data at Source endpoint.
- Good Understanding of Basic SQL queries like DDL, DML, Unix commands.
- Replicated the data to different Targets like Oracle, LogStream, MySQL Workbench, Snowflake, Kafka, IBM, GCB

Oct 2022 - Jan 2023

- **Software developer**

Sightspectrum solutions private limited

Project Name: Qlik Sense

Role: Qlik Sense Developer

Tool: Qlik sense desktop

Description:

Worked in Dev Hub to convert the QVW file to Qlik Sense file and created

the dashboards for healthcare mini-project

Responsibilities:

- Designed and Developed Qlik Sense Business Intelligence Dashboards and Reports.
- Expertise in Creating Dashboards using various Qlik Sense Sheet objects and using different third-party extensions like Vizlib Library, Any Chart and Any Gantt etc.
- Strong knowledge on Qlik Sense architecture, building QVDs and QVFs applying business rules and data validations.
- Involved in Qlik Sense Admin activities like Publishing applications, Tasks creation & Third-party Extensions import in Qlik Management Console (QMC).

EDUCATION

- G. K. M College of engineering and technology
B.E

CERTIFICATION

- Modeling Data Warehouse with Data vault 2.0
