

SWATI PAWAR

Senior Consultant

PROFILE

- Have 9 years of .Net, .Net Core Framework experience in Analysis, Designing, Development, Debugging and Maintenance of Multi-tier Enterprise Web Application.
- MVC, C# and ASP.Net, Node.js, Angular 9/10, RXJS, Xamarin Developer. Worked in Waterfall and Test-Driven Development environment.
- Expertise in developing application using .NET 4.5, MS Visual Studio 2017/2019, MVC 4.0/5.0, Razor View Engine, C#.Net, ASP.Net,
- .Net, Angular, LINQ, AJAX, XML, JavaScript, Typescript, jQuery, JSON, HTML and CSS, SQL 2014/2019, web services. Experienced with Microsoft Application building blocks for .Net projects Data Access, Exception Handling.
- Expertise knowledge on Design Patterns, Object Oriented Programming OOPS Concepts including Inheritance, Abstraction,
- Encapsulation and Polymorphism, good experience in Exception Handling, Debugging and tracing by which the whole picture of application runtime can be seen and analysis more efficiently.
- Expertise in developing Client/Server Applications on various architectural design patterns including MVC 4.0/5.0, Three Tier, Multi-Tier Architecture.
- Proficient in developing systems built on SQL Server 2014/2019 using Tables, Triggers, Functions and Stored Procedures in SQL and maintaining the database, including requirement analysis, design, data conversion, loading and implementation.
- Experience in creating rich design templates using HTML 5, Bootstrap, Angular using custom libraries such as Ag-Grid, Full Calendar control etc.
- Proficiency in using Entity Framework Entities and Mappings to achieve connection between relational databases.
- Experience in querying using LINQ to SQL and other data sources.
- Hands on experience developing reusable components using Object Oriented Techniques. Enthusiastic, Ability to quickly understand and utilize new technologies
- Ability to take and give directions, instructions and provide assistance through completion of tasks.
- Ability to work under minimal supervision, adhere to deadlines, excellent verbal and communication skills. Proficiency in preparing technical documentation of changes included in existing or current software.
- Experience with Devops and Delivery Managers to provide active management of the Continuous integration/Continuous deployment processes through the TFS/Azure Devops and Release Manager packages.
- Hosted the Web applications build in Asp.Net MVC on Microsoft Azure, secured with Azure Active Directory and used the Caching strategy using Azure Redis Cache, used Azure functions for sending Emails, deploying applications Azure WebApps services, Azure Web Jobs, Microservices, Cosmos DB. Microservices architecture.

EXPERIENCE

Senior Consultant | Capgemini India Pvt Ltd, Mumbai

May 2018 - Present

Delivery Software Engineer | Mphasis Ltd, Mumbai

Mar 2017 - May 2018

Software Engineer | Verixo Technologies Pvt Ltd, Mumbai

May 2015 - Mar 2017

Software Developer | Copia Consultancy Services Pvt Ltd, Mumbai

Jun 2014 - May 2015

Software Developer | Air India Ltd, Mumbai

Jan 2014 - Jun 2014

EDUCATION

MCA | YMT College of Management, Kharghar Navi Mumbai Aug '11 - Sep '14
Mumbai University, Navi Mumbai

Aug 2011 - Sep 2014

TECHNICAL SKILLS

Methodologies

Agile and Waterfall ,Test-Driven

.Net Technologies

.Net4,5/6, Asp.Net MVC (4.0/5.0), Asp.Net 4.5, C#.NET, Web API, Xamarin.Forms.

Development Tools

Microsoft Visual Studio 2019/2022, Fiddler, Postman, SQL Server Management Studio, Entity Framework Core, Visual Studio Code.

Version Control Tools

Microsoft Team Foundation Server, GIT.

Operating Systems

Windows 8,10

Languages

HTML 5, CSS, JavaScript, jQuery, Bootstrap 4/5, LINQ, Web API, AJAX, Typescript.

Databases

SQL Server 2016/2019, SQLite 3.6, Mongo DB.

Reporting

Crystal Reports, Microsoft Reporting (RDLC).

Cloud Technology

Microsoft Azure (PaaS), Microsoft Azure Devops, Sonar Cloud Analysis.

Unit Test Frameworks

NUnit , MS Test.

SOFTWARE PROJECTS

Project Name : Swapa.org Web and Mobile Applications.

Nov 2019

- Client : SWAPA.
- Role : .Net Full stack Developer.
- Roles performed :Experience with DevOps and Delivery Managers to provide active management of the continuous integration/continuous deployment processes through the Azure Devops and Release Manager packages. UI Designing, Development, Debugging and writing the test cases, creating the technical documentation on the Artifacts and internal bugs assigned. Presenting the proposals to the client on monthly sprints. Creating Build and release packages on TFS and uploading on the server for testing. Helping/mentoring junior team members in understanding requirement.
- Technology used in project
 - Operating System : Window 10
 - Technology : C#, .Net Core Web API, Epi Server ,Angular 9, XML, jQuery, Bootstrap, Azure PaaS, Node.js, NUnit ,Sonar Cloud analysis ,Microsoft Dynamics , Sql Server 2019.
 - Domain : Aviation.
 - Version Control tools : GIT.
- Description :A <https://www.swapa.org/> is a website for the Southwest Airlines Pilots Association (SWAPA) , Pilots can login to check the News feeds, Calendar ,Events, Videos ,Policy Manuals ,Podcasts , Blogs ,Emails . A password protected application for the use of Southwest Airlines pilots .The app contains Contacts, informational resources and flight statistics

Project Name : Vision/HPAA/Vision Intelligent Framework.

Jun 2018 - Oct 2019

- Client : **HP Inc.**
- Role : .Net/Angular Developer
- Roles performed :
 - Experience with DevOps and Delivery Managers to provide active management of the continuous integration/continuous deployment processes through the TFS and Release Manager packages.
 - UI Designing, Development, Debugging and writing the test cases, creating the technical documentation on the Artifacts and internal bugs assigned.
 - Presenting the proposals to the client on monthly sprints.
 - Creating Build and release packages on TFS and uploading on the server for testing.
 - Helping/ mentoring junior team members in understanding requirement.
- Technology used in project
 - Operating System : Window 10
 - Technology : C#, .Net Core, Web API, Angular 4/6, XML, jQuery, Bootstrap, Electron.js, Node.js.
 - Domain : Manufacturing.
 - Version Control tools : Microsoft Team Foundation Server, GIT.
- Description :
 - **Vision Intelligent framework** is a diagnostics stress tool and framework to identify the real issue in product lifecycle. Identify the exact list of tests to be run and the parameters to use for the tests. it's used for Internal qualification which collect the data to analyze the system performance, Based on analysis add more monitoring data points.
 - **HPAA** is a diagnostics stress tool and framework to identify the real issue in product lifecycle. Identify the exact list of tests to be run and the parameters to use for the tests.
 - **C# Diagnostics** are the individual tests tool used in factory to check the hardware and software performance, check issues into specific hardware and software components before delivering to the customer for e.g. CPU stress, memory tests, USB ports test.

Project Name : SBI Intouch

May 2017 - May 2018

- Client : SBI
- Role : .Net Developer
- Roles performed
 - UI Designing, Development, Debugging and writing the test cases, creating the technical documentation on the Artifacts and internal bugs assigned.
 - Deploying the Applications on different branches of the bank. developing systems built on SQL Server 2014 using Tables, Triggers, Functions and Stored Procedures in SQL and maintaining the database, including requirement analysis, design, data conversion, loading and implementation.
 - Creating jobs and Schedulers in Sql server.
 - Presenting the proposals to the client on monthly sprints.
 - Helping/ mentoring junior team members in understanding requirement.
 - Preparation of daily status report and weekly status report.
 - Documenting, functional document for different applications.
- Technology used in project
 - Operating System : Windows 7/10.
 - Technology: Asp.NetMVC5, Angular4, C#, MSSQLServer2014, JQuery, Bootstrap, JavaScript, JSON, AJAX, WebAPI 2, RDLC.
 - Domain : Banking.
 - Version Control tools: Microsoft Team Foundation Server ,GIT.
- Description
 - **Account Opening:** At the SBI InTouch branches, banking services such as the opening of Savings Bank, Current Accounts, PPF etc. Account opening Kiosk (AOK) enables customers to open their account with just a few touches then and there.
 - **Debit Card Printing:** The printing of personalized photo debit cards on the spot is available by revolutionary touch technology Debit Card Printing Kiosks (DCPK). The whole process of opening an account and printing a debit card takes less than 15 mins deposits. Customers are required to bring only Aadhaar card for verification purposes to SBI INTOUCH Branches and get their personalized photo debit cards.

Project Name: Verixo Management Suite (VMS)

May 2015 - Mar 2017

- Client: Dominos/McDonald
- Role : .Net Developer
- Roles performed
 - UI Designing, Development, Debugging and writing the test cases, creating the technical documentation on the Artefacts and internal bugs assigned.

- Testing the Applications on different devices like Mobile, Thin Clients, Laptops (Windows/Linux).
- Updated the Application with Multilingual changes. Debugging the Web services on the Linux/Windows thin clients to check the device functionality, status.
- developing systems built on SQL Server 2014 using Tables, Triggers, Functions and Stored Procedures in SQL and maintaining the database, including requirement analysis, design, data conversion, loading and implementation.
- Creating jobs and Schedulers in Sql server. Presenting the proposals to the client on monthly sprints. Helping/ mentoring junior team members in understanding requirement.
- Preparation of daily status report and weekly status report Documenting, functional document for different applications
- Technology used in project
 - Operating System :Windows 7
 - Technology : Asp.Net 4.5, C#, MS SQL Server 2012, jQuery, Bootstrap, JavaScript, JSON, AJAX, Web Services.
 - Domain : Client-Server.
 - Version Control tools : Microsoft Team Foundation Server, GIT.
- Description
 - **Verixo Management Suite** is a diligent multi-tier service-oriented architecture consisting of smart client agent, SOAP-based messaging framework and web services-based middleware allowing robustness, reliability, scalability, security features over LAN and WAN networks, the features include DISCOVERY, OS&APPLICATION DEPLOYMENT, PATCH MANAGEMENT, SECURITY MANAGEMENT, POWER MANAGEMENT, REPORTS & LOGS, REMOTE CONTROL, CONFIGURATION MANAGEMENT,

Project Name : CEMS

Jun 2014 - May 2015

- Client : Manufacturing Company.
- Role : .Net Developer
- Roles performed :
 - UI Designing, Development, Debugging and writing the test cases, creating the technical documentation on the Artefacts and internal bugs assigned.
 - Prepared the User Guide and provide the user support on usage of App.
 - End to End testing of Application on Mobile phones, tablets. developing systems built on SQL Server 2014 using Tables, Triggers, Functions and Stored Procedures in SQL and maintaining the database, including requirement analysis, design, data conversion, loading and implementation.
 - Creating jobs and Schedulers in Sql server.
 - Presenting the proposals to the client on monthly sprints.
 - Helping/ mentoring junior team members in understanding requirement.
 - Preparation of daily status report and weekly status report Documenting functional document for different applications.
- Technology used in project
 - Operating System : Windows 7/10
 - Technology : Asp.NetMVC4, C#, MSSQLServer2014, jQuery, JavaScript, JSON, AJAX, Entity Framework, Web Services.
 - Domain : Electronics.
 - Version Control tools : Microsoft Team Foundation Server, GIT.
- Description
 - **Centralized Efforts Management System.** This android application is specifically developed for equipment manufacturers & service providers (Dealers) in Construction Equipment industry. It is an Android application for monitoring processes & workforce efforts. It captures data from equipment locations in real time format. It has built-in analytics for effective and accurate decision making. It has a web-based dashboard developed in .net which manages authentication of users, preparing report cards, maintaining and correcting data at backend.

CERTIFICATIONS

- **AZ-204 Microsoft Azure Developer Associate. | Microsoft**

Oct 2019 - Oct 2022

- **AZ-400 Microsoft DevOps Engineer Expert. | Microsoft**
