Subject: Project Management Assignment in Production & Allied Operations

Dear Sir/ Ma'm

Against your expressed requirement of an appropriately qualified candidate for the subject position, I avail this occasion to endorse my resume for perusal and consideration.

Qualified mechanical engineer and essentially a production professional, I have contributed over 14+ years predominantly in supervising production operations with renowned engineering companies. I have consistently demonstrated functional excellence in production planning, drawing materials estimates, and effectively managing manpower, machines and material resources to achieve defined production and productivity targets. Ensuring strict observance of quality systems I have significantly brought down the rejection levels. I have successfully maneuvered CNC machines and achieved highest CNC Machines' productivity. I have acquired hands on experience in Gas and Arc welding, assembly and fabrication operations.

specializes in the Design, Engineering & Manufacture of automated Filtration, Separation, Aeration Systems & Online Robotic Cleaning Systems, designs for Valveless Automatic Gravity Filters commonly known as AVGF/VAGF for Water Filtration.

With trail of impeccable performances, I seek career realignment at middle managerial level in production operations with a reputed engineering company in India /abroad.

My enclosed resume shall take you through the details and I hope you would find my profile quite matching with the subject job assignment. I shall be glad to receive a call for an interview.

Thanks and regards,

Naveen Jagannath Karande

Project Management ,

Seeking middle management assignment in Project Management Production & sitefunction with a progressive engineering company in India /abroad.

PROFILE

- Professionally matured mechanical engineer with career success of 14+ years in managing production, welding, assembly and fabrication operations with renowned engineering companies in India
- Demonstrated functional strengths in production planning, drawing raw materials estimates, coordinating with purchase/stores to arrange inputs on the shop floor, and mobilizing & managing manpower, machines and material resources to achieve defined production and productivity targets.
- Wide experience in programming and operating CNC machines to ensure achievement of targeted production in required quality and quantity. Skilled in observing quality systems & procedures to minimize incidences of rejection and reworking.
- Deft in maintaining daily production chart and production documentation in ERP9 applications. Adept in implementing process improvements and control systems to avoid process wastages and improve overall productivity. Wide exposure to Gas, Arc, G.T.A.W, Co2 Welding and Gas Cutting
- Self driven, focused and result oriented with Fine-tuned analytical and problem solving skills. Effective team leader, trainer and motivator with excellent written and verbal communication skills.
- Engineering & Manufacture of automated Filtration, Separation, Aeration Systems & Online Robotic Cleaning Systems..
- Valveless Automatic Gravity Filter (AVGF / VAGF)
- specialized systems that deal with Cooling Water filtration, Water & Waste Water Treatment, Oil Filtration & Separation, Recycle & Reuse.

.Key Strength Areas

- **Engineering**
 - **Manufacture of automated Filtration**
 - **Separation**
 - **Aeration Systems**
 - **Online Robotic Cleaning Systems**
 - **Valveless Automatic Gravity Filter (AVGF / VAGF)**
 - **Production Planning**
 - **Shop Floor Operations**
 - **CNC machines Programming /Operations**
 - **Process Improvements**
 - **Quality Control/ Troubleshooting**
 - **Productivity Improvement**
 - **Resource Mobilization**
 - **Workforce Management**
 - **Production**
 - **Documentation**
 - **Gas & Arc Welding**
 - **Coordination**
-

PROFESSIONAL EXPERIENCE

STACKWELL INDIA SOLUTIONS

Sr.Production Incharge

July 2023 - PRESENT

- Managing production operations at the shop floor with responsibility to achieve production and productivity targets in required quality and quantity.
- Coordinated with purchase section/ stores to ensure availability of raw materials /other inputs as per production norms to support production plan.
- Monitoring production process, identifying /eliminating technical snags and introducing process improvements to optimize process efficiency. Maintaining effective process control to prevent outages and ensuring observance of quality parameters.
- Coordinated with purchase section/ stores to ensure availability of raw materials /other inputs as per production norms to support production plan.

JAY INDUSTRIES

Aug 2022 – June 2023

Production Engineer

- Managing production operations at the shop floor with responsibility to achieve production and productivity targets in required quality and quantity.
- Handling punching, bending, shearing, power press, welding department.
- Coordinated with purchase section/ stores to ensure availability of raw materials /other inputs as per production norms to support production plan.
- Programming CAD-MAN machines and deploying manpower, machine and materials resources to achieve highest operational efficiency.
- Monitoring production process, identifying/eliminating technical snags and introducing process improvements to optimize process efficiency. Maintaining effective process control to prevent outages and ensuring observance of quality parameters.
- Preparing daily production chart and maintaining production records in online applications.
- Consistently delivering superior performance to total satisfaction of departmental manager /senior

ACHME LASERTECH PVT.LTD.,

Oct 2018 – Sep 2019

Marketing Executive

- Managing production and performance of multimedia content,
- writing and proofreading creative copy,
- maintaining websites and tracking data analytics,
- updating database and using a customer relationship management (CRM) system,
- monitoring budgets,
- managing social media campaigns,
- monitoring performance of marketing campaigns.

Project Incharge

- specializes in the Design,
- Engineering & Manufacture of automated Filtration,
- Separation,
- Aeration Systems & Online Robotic Cleaning Systems.
- designed specialized systems that deal with Cooling Water filtration,
- Water & Waste Water Treatment,
- Oil Filtration,
- Recycle & Reuse & experience in the field of Industrial filtration,
- we have now developed unique designs for Valveless Automatic Gravity Filters commonly known as AVGF/VAGF for Water Filtration.

CRISH METAL WORKS PVT. LTD.**Aug 2010 – June 2015****Production Engineer**

- Managing production operations at the shop floor with responsibility to achieve production and productivity targets in required quality and quantity.
- Coordinated with purchase section/ stores to ensure availability of raw materials /other inputs as per production norms to support production plan.
- Programming (CNC CAD) machines and deploying manpower, machine and materials resources to achieve highest operational efficiency.
- Monitoring production process, identifying /eliminating technical snags and introducing process improvements to optimize process efficiency. Maintaining effective process control to prevent outages and ensuring observance of quality parameters.
- Preparing daily production chart and maintaining production records in ERP9 applications.
- Consistently delivering superior performance to total satisfaction of departmental manager /senior

PRIJAI HEAT EXCHANGERS PVT. LTD.**Jun 2008 - Jul 2010****CNC Operator**

- Efficiently operated wide range of CNC machines including - CNC Operating (Sinumerik Control) CNC Press Breaker, Power Press, Surface Grinding, CNC Shearing Machine.
- Carried out Sheet metal Assembling & Welding (MMAW, SMAW, GTAW, & CO2) work in compliance with standard operating procedures.

ADITI DIAMIMPEX TRADING & MANUFACTURING CO. LTD**Feb.2006 - Apr2008****Technical Assistant**

- Provided active assistance in executing Technical Work.
- Prepared /submitted Daily Production Report to the superiors.

VARDHMAN ENGINEERING**Jan 2003 - Dec 2005****Welder**

- Effectively handled Gas, Arc, G.T.A.W, Co2 Welding, Gas Cutting, Assembling & Fabrication work in conformance with laid down quality parameters.
- Completed the assigned works within allowed time schedules to total satisfaction of superiors.

VOLTAS MAIN PLANT**Oct.2001 -- Sep.2002****Welder**

- Performed Argon(G.T.A.W.), Gas & Arc Welding works as assigned from time to time.

EDUCATION

- Diploma in Mechanical engineering, Karnataka State Open University - Jan.2014 (66.94%)
- N.C.T.V.T, Maharashtra Board -2002 (73.71%)
- ITI (Welder), Maharashtra Board -2001 (63.71%)
- S.S.C, Nutan Viday Mandir (Mankhurd) - Mar. 1998 (56.13%)

OTHER QUALIFICATIONS

- English Typing 30 W.P.M, Maharashtra Board -2001
 - Basic Computer (Word, Excel, Power Point), Maharashtra Board-2002
 - AUTO-CAD (Isometric, 2d&3d), Cadsys Simulation India Pvt. Ltd -2009
