ASP.NET

PROJECTS

Covid_19 Future Forecasting using ML

- Project Description: The Covid_19 future forecasting using Machine Learning Algorithms is a web-based application designed to facilitate the management of such as the number of newly infected cases, the number of deaths, and the number of recoveries in the next 10 days. The system aims to improve efficiency, patient care, and overall organizational performance. (using Python Machine Learning)

Bank Web Application (FLM BANK)

- Project 2: A new bank wants to automate their banking operation, for that they need an application. (Core Java)
