2011

TECH SKILLS

- React.js, Redux
- JavaScript
- HTML, CSS
- Git

SOFT SKILLS

- Strong problem-solving and debugging skills
- Excellent verbal and written communication skills
- Self-motivated and fast learner

ABOUT ME

Motivated Front End Web Developer with a strong computer science background. Skilled in HTML, CSS, JavaScript, ReactJS, and various frameworks. Experienced in delivering high-quality web applications. Seeking a Full Stack Web Developer role to contribute creativity, problem-solving skills, and a dedication to exceptional user experiences.

EXPERIENCE

Senior Engineer - Product Development

Harman Connected Services (Mar 2022 - May 2023)

- Developed and maintained server-side JavaScript applications and worked on React functional based components for Cayuse client based in the UK.
- Collaborated with cross-functional teams to design and implement innovative solutions.
- Conducted code reviews and provided constructive feedback to enhance code quality.
- Participated in the full software development lifecycle, including requirements gathering, design, development, testing, and deployment.

Project Engineer

Wipro Technologies (Aug 2018 - Aug 2021)

- Worked on the Cisco cloud system, handling small UI changes using HTML, CSS, JavaScript and React.
- Utilized Java coding for backend development and integration.
- Assisted clients in resolving incidents and provided support for utilizing Cisco services.
- Collaborated with a global team to deliver projects on time and within scope.

PROJECTS

- Created **GPT3 UI/UX Application** using **React.js**. Intensive usage of React Functional components and their reusability. Deployed at <https://gpt3-react-app.onrender.com>. Repository link - <https://github.com/debolinashil/gpt3-react-project.git>.
- Created **Bumble Notes Application** using **React.js** and **Redux** where you can save and delete your notes. Deployed at <https://bumble-notes-react-redux-app.onrender.com>. Repository link - <https://github.com/debolinashil/BumbleNotes-React-Redux-App.git>.
- Created an **Expense tracker** using **React** where you can add your expenses and filter out your expenses through year and a chart which shows which month you spent more. GitHub link to the project - <https://github.com/debolinashil/Expenses-React-Project.git>.
- Created a **Food Order Application** using **React** where you can add items into the cart and order. GitHub link to the project - <https://github.com/debolinashil/React-Food-Order-App.git>.
- Remaining projects - <https://github.com/debolinashil?tab=repositories>

ACHIEVEMENTS

- Received second prize in an event “Code Soccer” in Sambhram Institute of Technology.
- Participated in one day workshop on “Innovative Engineering Solutions for Societal Development” at Sambhram Institute of Technology.
- Participated in the program “Young Chef in the Kitchen” at IIHM, Bangalore.
- Among top 10’s in academic results at Sambhram Institute of Technology

HOBBIES

- Digital Content Creation
- Cooking
- Travelling
